A QUINTA DISCIPLINA Peter Senge INTRODUÇÃO Desde cedo aprendemos a separar e dividir os problemas para facilitar a execução de tarefas e o tratamento de assuntos complexos. Com isso, freqüentemente deixamos de ver as conseqüências dos nossos atos e perdemos, também, o sentido de conexão com o todo maior.

Peter Senge starts from the position that if any one idea about leadership has inspired organizations for thousands of years, ' it ' s the capacity to hold a share picture of the future we seek to create ' (1990: 9). Such a vision has the power to be uplifting – and to encourage experimentation and innovation.

LA QUINTA DISCIPLINA Peter senge Integrantes: LA QUINTA DISCIPLINA La meta es desarrollar el pensamiento sistemático en la creación de una visión compartida, tener una nueva percepción del mundo y sobre todo de nosotros mismos para sentirnos parte de éste mundo en el que vivimos,

Completely Updated and Revised This revised edition of Peter Senge ' s bestselling classic, The Fifth Discipline, is based on fifteen years of experience in putting the book ' s ideas into practice. As Senge makes clear, in the long run the only sustainable competitive advantage is your organization ' s ability to learn faster than the competition. The leadership stories in the book demonstrate the many ways that the core ideas in The Fifth Discipline, many of which seemed radical when first published in 1990, have become deeply integrated into people ' s ways of seeing the world and their managerial practices. In The Fifth Discipline, Senge describes how companies can rid themselves of the learning " disabilities " that threaten their productivity and success by adopting the strategies of learning organizations—ones in which new and expansive patterns of thinking are nurtured, collective aspiration is set free, and people are continually learning how to create results they truly desire. The updated and revised Currency edition of this business classic contains over one hundred pages of new material based on interviews with dozens of practitioners at companies like BP, Unilever, Intel, Ford, HP, Saudi Aramco, and organizations like Roca, Oxfam, and The World Bank. It features a new Foreword about the success Peter Senge has achieved with learning organizations since the book ' s inception, as well as new chapters on Impetus (getting started), Strategies, Leaders ' New Work, Systems Citizens, and Frontiers for the Future. Mastering the disciplines Senge outlines in the book will: • Reignite the spark of genuine learning driven by people focused on what truly matters to them • Bridge teamwork into macro-creativity • Free you of confining assumptions and mindsets • Teach you to see the forest and the trees • End the struggle between work and personal time

El arte y la práctica de la organización abierta al aprendizaje.

A quinta disciplina, agora em uma edição revista e ampliada, com exemplos de como grandes corporações aplicaram os ensinamentos deste livro e obtiveram resultados extraordinários. A quinta disciplina é, na verdade, a síntese de outras quatro, que, segundo Peter Senge, são fundamentais para o sucesso de uma empresa, independentemente do ramo ou do tamanho. Sucesso no Brasil e no mundo desde sua primeira edição, o livro traz programas de aprendizagem baseados em cinco importantes "disciplinas": domínio pessoal, modelos mentais, visão compartilhada, aprendizagem em equipe e pensamento sistêmico.

La Quinta Disciplina es el primer libro de Management del siglo XXI. Una obra precursora sobre la construcción de organizaciones inteligentes, abiertas al aprendizaje. A partir de un auténtico enfoque interdisciplinario, Peter Senge, Director de Pensamiento de Sistemas y Aprendizaje Organizacional del MIT, despliega su singular visión y nos ubica en las fronteras del pensamiento organizativo, mostrando cómo serán las Organizaciones capaces de sobreponerse a las dificultades y cómo reconocer amenazas y enfrentar nuevas oportunidades. Su lectura es una cautivante invitación a revisar nuestra forma de pensar la organización. Peter M. Senge es director de Pensamiento de Sistemas y Aprendizaje Organizacional de la Sloan School of Management del MIT y socio fundador de la consultora Innovation Associates, de Massachusetts. Ha formado cientos de gerentes en empresas como Ford, Digital, Apple, Procter & Gamble, AT&T, Herman Miller, Hanover Insurance y Shell.

Las organizaciones que utilizan prácticas colectivas de aprendizaje - como centro de competencia - están bien preparadas para prosperar en el futuro, porque serán capaces de desarrollar cualquier habilidad que se requiera para triunfar. En otras palabras, la capacidad de ganancia futura de cualquier organización está directa y proporcionalmente relacionada con su habilidad y capacidad para aprender cosas nuevas. De este modo, las organizaciones que prosperarán en el futuro serán "organizaciones inteligentes", organizaciones que explotarán la experiencia colectiva, talentos y capacidades de cada persona para aprender a cómo triunfar en conjunto. El aprendizaje se convertirá en una forma de vida y en un proceso continuo, en vez de una parte específica de la carrera de una persona. Para las corporaciones, el aprendizaje es vital para su éxito futuro.

Para empezar : orientación - Cartilla de las cinco disciplinas / - El salón de clase : la puerta abierta - Ver al aprendiz - Prácticas - Diálogo productivo - Pensar en sistemas / - La escuela : ingreso a la escuela - Visión escolar - La realidad actual - Desarrollo - Liderazgo / - La comunidad : identidad - Conexiones - Sostenibilidad.

RESUMEN COMPLETO | LA QUINTA DISCIPLINA: EL ARTE Y LA PRÁCTICA DE LA ORGANIZACIÓN ABIERTA AL APRENDIZAJE (THE FIFTH DISCIPLINE) - BASADO EN EL LIBRO DE PETER M. SENGE - ¿Quieres saber las respuestas a estas preguntas basadas en el libro? Inspírate Para Seguir Aprendiendo Y Creciendo ¿Son Los Entornos De Trabajo Los Que Pueden Extinguir Los Incentivos De Aprendizaje? ¿Cuáles Son Las Cinco Disciplinas Clave Que Promoverán El Aprendizaje Dentro De Las Empresas? ¿Qué Motiva A Las Personas Y Las Desafía A Crecer? ¿Estamos Cegados Por Creencias Limitantes Que Ni Siquiera Sabemos Que Tenemos? ¿Una Visión Compartida Podría Impulsar A Las

Organizaciones De Aprendizaje ¿Las Personas Deben Aprender A Trabajar Juntas En Equipos Para Tener Éxito? ¿Cuál Es La Característica Más Importante De Una Organización Que Aprende? ¿Se Necesita Redefinir El Papel De Un Líder En Las Empresas De Aprendizaje? Entonces adquiere este resumen y ¡descúbrelo! - ACERCA DEL LIBRO ORIGINAL La Quinta Disciplina (1990) es una guía completa para crear organizaciones de aprendizaje, lugares de trabajo que fomentan la innovación y el crecimiento personal. El autor sostiene que, en nuestro mundo en rápida evolución, las empresas solo pueden tener éxito si cambian la forma en que afrontan los problemas. En su opinión, un enfoque reactivo, basado en apagar constantemente incendios, ya no funciona. En lugar de ello, las empresas deben adoptar lo que él llama un sistema método de pensamiento. Este método es proactivo y su propósito es identificar patrones subyacentes y generar soluciones innovadoras. Pero este enfoque solo funciona si cuenta con personal motivado que comparte la visión de la empresa. Peter Senge es profesor titular de la MIT Sloan School of Management y fundador de la Society for Educational Learning. Su primer libro, *The Fifth Discipline*, vendió más de dos millones de copias. La *Harvard Business Review* nombró como uno de los más importantes libros de gestión de los últimos 75 años. Las publicaciones posteriores de Senge incluyen *Presence* y *The Needed Revolution*. - ACERCA DE LIBROS MAESTROS LOS LIBROS SON MAESTROS. Pueden guiar lo que hacemos en nuestras vidas y cómo lo hacemos. Muchos de nosotros amamos los libros mientras los leemos y hasta resuenan con nosotros algunas semanas después, pero luego de 2 años no podemos recordar si lo hemos leído o no. Y eso no está bien. Recordamos que, en el momento, aquel libro significó mucho para nosotros. ¿Por qué es que tiempo después nos hemos olvidado de todo? Este resumen toma las ideas más importantes del libro original.

Radical and hopeful -- *Presence* synthesises cutting-edge thinking, firsthand knowledge and ancient wisdom *Presence: Human Purpose and the Field of the Future* gives the reader an intimate look at the development of a new theory about change and learning. A book built around a series of wide-ranging conversations over a year and a half, Senge, Scharmer, Jaworski, and Flowers explore their own experiences and those of one hundred and fifty scientists and social and business entrepreneurs in an effort to explain how profound collective change occurs. Their journey of discovery articulates a new way of seeing the world, and of understanding our part in creating it -- as it is and as it might be. *Presence* explores the living fields that connect us to one another, to life more broadly, and, potentially, to what is "seeking to emerge." Seven capacities underlie our ability to see, sense, and realize new possibilities. Developing these capacities accesses a deeper level of learning that is the key to creating change that services the whole -- ourselves, our organizations and the communities of which we are a part.

This is a timely and groundbreaking book from the bestselling author of "The Fifth Discipline" series and "Presence". "The Necessary Revolution" reveals how corporations and organizations are, in the face of looming environmental crises and pressure from social issues, finding solutions that ensure both long-term survival and real-time business success. "The Necessary Revolution" is destined to become the essential handbook for everyone who understands the need to act and work together now to create a sustainable world for ourselves and the generations to come. A revolution is underway, and spreading fast. Organizations everywhere are boldly leading the change from the dead-end of 'business as usual' to new strategies and transformative practices that promote a flourishing, sustainable world. Pragmatic and powerful, today's most innovative leaders know that revolutionary - not incremental - changes in the way we live and work are necessary for their, and our, survival. Brimming with inspiring stories from around the globe, and organizations ranging from Alcoa to Oxfam, DuPont to GE, "The Necessary Revolution" clearly shows that ordinary people at every level within every organization have the ability and innovative spirit to do extraordinary things. By working collaboratively across boundaries, they are amplifying their creativity to find unprecedented solutions in an intensely interdependent world. "The Necessary Revolution" contains a wealth of strategies to help anyone, regardless of role or title, build the confidence and competence to respond effectively to the greatest challenge of our time. It is destined to become the essential handbook for everyone who understands the need to act and work together - now - to create a sustainable world for ourselves and the generations to follow.
