Abu Dhabi: The Department of Culture and Tourism – Abu Dhabi (DCT Abu Dhabi) has announced its latest initiative in support of the local art community, in partnership with Aldar Properties. 'Art Space' will provide exhibition spaces for UAE-based artists at retail locations across the emirate, allowing them to showcase their latest work and engage with wider audiences.

This spectacular building is at the crossroads of dominating architectural trends: parametrically designed, it features a Diagrid structural frame and an innovative structural core, allowing it to be the world's furthest leaning tower. Developed by the Abu Dhabi National Exhibition Company, it will host, on its opening in 2013, the Exhibition Center and a Hyatt Hotel. The combination of technological pioneering with a striking appearance and a world-wide functional use will bring this building to the attention of all those who cherish the challenge in contemporary lifestyle. To be published in time for the buildings opening, this book by the building's leading architects will convey the drama and the details in a stunning volume.

Subdued oil prices prompted a trimmed federal budget for 2016 as the UAE, like other countries in the region, tightened its belt in response to falling hydrocarbons revenues. However, a sustained focus on economic diversification and targeted investment in Abu Dhabi's key non-oil sectors in recent years means the emirate is well positioned to weather the storm. Looking forward, plans for future development are mapped out in Abu Dhabi Economic Vision 2030, a comprehensive economic policy document that aims to reduce dependence on oil and gas, thereby creating a more sustainable knowledge-based economy for the emirate and its inhabitants. Aided by hydrocarbons reserves that are among the world's largest and substantial financial resources, Abu Dhabi has built up a strong foundation to become a regional leader and an increasingly important global player in a wide variety of sectors, including oil and gas, financial services, health care, aviation and renewable energy.

Hydrocarbons revenues still form the bulk of Abu Dhabi's GDP and while falling prices are a concern, the emirate has been moving steadily towards its economic diversification targets in line with Abu Dhabi Economic Vision 2030. The past 10 years has seen the non-oil sector expand strongly on the back of business-friendly government policies, as a result of which non-oil sector growth now outpaces that of the oil sector. Outside of hydrocarbons, construction and manufacturing represent the biggest GDP contributors in the emirate, with the

construction sector poised to enter a period of renewed expansion and manufacturing identified as a key area for future growth, leveraging the emirate ' s natural resources, growing downstream capabilities and strategic location. Elsewhere Abu Dhabi ' s financial sector continues to assert itself and the expected 2015 launch of Abu Dhabi Global Market, the UAE ' s second financial free zone, is expected to boost activity in the sector. Meanwhile visitor numbers to Abu Dhabi continue to rise, with around 3.5m arrivals in 2014, up 25% on the previous year. This growth is expected to continue as major infrastructure upgrades continue apace. These include the expansion of Abu Dhabi International Airport and the development of the 1200-km wide Etihad rail project.
