John Travers Mends (Jack) Gibson was born on March 3, 1908 and died on October 23, 1994 at the age of 86.In some ways, Jack was the last Indian Englishman. He came ten years before independence and stayed on 47 years after it, rendering dedicated service to the country of his adoption for 57 years. Jack's journey started as a school teacher at The Doon School. He was the last English Principal of Mayo College and the last English President of the Himalayan Club. He was the last, and for most of the time the only English resident of Ajmer. He must have been just about the last Englishman to have been honored by both the British and Indian Governments.Brij Sharma is a journalist based in Bahrain. He spent much of his childhood and youth in Dehra Dun, and while not a product of The Doon School, he has known its campus, the surroundings of the city and much of the mountainous terrain described in Gibson's letters.<http://www.jtmgibson.com>

Scouting for Youth

Originally adapted from the British handbook written by Agnes Baden-Powell and Robert Baden-Powell, known for their work with the Boy Scout Association and the Girl Guide Association, How Girls Can Help Their Country was a guide for young Girl Scouts of America in 1913. The tenets of the Girl Scouts are honor, duty, loyalty, kindness, comradeship, purity, cheerfulness, and thriftiness. This handbook describes how girls can establish their own troop, uphold the Girl Scout tenets, and grow to be proper young women. It also outlines more concrete tasks such as camping, games, cooking, and first aid. This edition, written by W.J. Hoxie, was released for the 16th anniversary of the Girl Scouts’ founding. W.J. Hoxie was a noted naturalist in Savannah, Georgia in 1913. She prepared the Girl Scout Handbook, How Girls Can Help Their Country, together with Juliette Gordon Low.

Scouting for Youth

While Adolf Hitler’s National Socialist government was persecuting Jews and Jehovah’s Witnesses and driving forty-two small German religious sects underground, the Church of Jesus Christ of Latter-day Saints continued to practice unhindered. How some fourteen thousand Mormons not only survived but thrived in Nazi Germany is a story little known, rarely told, and occasionally rewritten within the confines of the Church’s history—for good reason, as we see in David Conley Nelson’s Moroni and the Swastika. A page-turning historical narrative, this book is the first full account of how Mormons avoided Nazi persecution through skilled collaboration with Hitler’s regime, and then eschewed postwar shame by constructing an alternative history of wartime suffering and resistance. The Twelfth Article of Faith and parts of the 134th Section of the Doctrine and Covenants function as Mormonism’s equivalent of the biblical admonition to “render unto Caesar,” a charge to cooperate with civil government, no matter how onerous doing so may be. Resurrecting this often-violated doctrinal edict, ecclesiastical leaders at the time developed a strategy that protected Mormons within Nazi Germany. Furthermore, as Nelson shows, many Mormon officials strove to fit into the Third Reich by exploiting commonalities with the Nazi state. German Mormons emphasized a mutual interest in genealogy and a passion for sports. They sent husbands into the Wehrmacht and sons into the Hitler Youth, and they prayed for a German victory when the war began. They also purged Jewish references from hymnals, lesson plans, and liturgical practices. One American mission president even wrote an article for the official Nazi Party newspaper, extolling parallels between Utah Mormon and German Nazi society. Nelson documents this collaboration, as well as subsequent efforts to suppress it by fashioning a new collective memory of ordinary German Mormons’ courage and travails during the war. Recovering this inconvenient past, Moroni and the Swastika restores a complex and difficult chapter to the history of Nazi Germany and the Mormon Church in the twentieth century—and offers new insight into the construction of historical truth.

Critiquing the arcades of nineteenth-century Paris--glass-roofed rows of shops that served as early malls--the author, who wrote the work in the 1920s and 1930s, covers thirty-six still-trenchant topics, including fashion, boredom, photography, advertising, and prostitution, among others.
