Buy bank-owned properties at fire-sale prices! Banks and lending institutions today own more than one million foreclosed properties, more are in the foreclosure pipeline. Banks desperately want to get these properties off their balance sheets, but there aren't enough buyers. The result is a soft real estate market with prices investors and homeowners may not see again in their lifetime. In recent years many bargain-hunting investors and homebuyers made the mistake of trying to get foreclosure prices via short sales and pre-foreclosure-- before the bank reclaimed the property. They've been burned by endless delays and uncertainty of the messy foreclosure process. With bank-owned properties, that's over. You deal directly with a motivated seller—the bank—and get the foreclosure price without the hassles and complexity of a short sale or pre-foreclosure. This book shows you how to negotiate the best possible terms with the real estate owned (or REO) department of a bank or lender, including step-by-step instructions and no-nonsense advice on finding great deals, estimating fair market value, and closing the deal. You don't need a ton of cash, because REO investing at fire-sale prices is affordable for almost any investor or homebuyer. Provides detailed, step-based guidance on buying REO properties Written by a super-successful REO investor with fifteen years of experience

rundown, mold-infested shack and transforming it into someone's dream home for massive profits? Reality TV shows make it look so easy. A little paint here, some new kitchen cabinets there, and presto! The house is sold for big bucks and everyone lives happily ever after. If only it were that simple. Fixing and flipping houses is a business. In order for a business to survive, prosper, and grow, systems must be put in place. Fixing and Flipping Real Estate: Strategies for the Post-Boom Era is a book that breaks down the four essential components of a fix-and-flip business, giving you the building blocks to efficiently buy and sell 1 to 20 properties a month in today's post-boom era housing market. You'll learn about each of the boxes: Acquisition—How to find and buy a profitable real estate deal. Rehabbing—How to systematically remodel a house and how not to underimprove, or overimprove, your property. Sales—How to sell your flip for the highest possible price in the shortest possible time. Raising Capital—How to get the capital you need to grow your business, including using other people's money, for your real estate deals without getting sued or going to jail. In the post-real estate boom era, fixing and flipping is again a solid business--especially in the "sand" states—Arizona, California, Nevada, Texas, and Florida, among others. It's also a good bet in states as diverse as North Carolina and Washington State. And with the real estate market projected to bottom out nationally in 2012 (this time for real), there are plenty of houses to be renovated and plenty of money to be made by the enterprising in all fifty states. This book shows real estate investors everything they need to know to get started fixing and reselling houses either as a substantial sideline or a full-on business.

Now updated for today's bullish real estate market, this is the go-to, classic entrepreneurial
