Suffering unseen: The dark truth behind wildlife tourism

Behind The Mask is part of Abbi Cook's Captive Heart series featuring Ryker, a controlling and cruel man obsessed with Kaia, and Kaia, who is taken by Tyler to pay for her husband's gambling debts. This dark and twisted tale will draw you in until the very last page of this novel.

This narrative follows a masked apprentice who obeys his master's orders without pity or restraint. The captives of Cheluna feel a dread fascination for the boy whose duty is to chastise. The untrained and the self-assured alike learn to shiver as they lie waiting for their punishment.

Nobel Prize laureate Rabindranath Tagore (1861-1941) is known to us today primarily as a poet and litterateur. Not many people, though, are aware of the vital significance of his efforts in the field of education and rural reconstruction. He loved the people of his country and strove for the rights of the rural poor to dignity and social justice. A pioneer in the field of education, he gave the last forty years of his life towards creating Visva-Bharati, an institution in rural Bengal, envisioned at the time as an Indian alternative to colonial education. This brief biography draws on the history of Visva-Bharati to sketch the relatively lesser known aspects of Rabindranath's life, namely, his work as an

educator and rural reformer. It also deals, though less prominently with the poet and the writer within him. Its primary focus is the issues that concerned Rabindranath all his life and featured regularly in his writings, such as Indian history, nationalism and internationalism, racial humiliation and the search for self-esteem, education, religion, humanism and a Jiban-Debata or "Lord of Life." This biography includes an appendix of selected letters by Rabindranath Tagore and will be of enduring interest to students as well as readers with an abiding interest in his life.

A unique autobiography that provides an incomparable insight into the mind of a genius The Renaissance man of modern India, Rabindranath Tagore put his country on the literary map of the world when he won the Nobel Prize for Literature in 1913. My Life in My Words is, quite literally, Tagore on Tagore. Uma Das Gupta draws upon the vast repertoire of Tagore's writings to create a vivid portrait of the life and times of one of India's most influential cultural icons. The result is a rare glimpse into the world of Tagore: his family of pioneering entrepreneurs who shaped his worldview; the personal tragedies that influenced some of his most eloquent verse; his groundbreaking work in education and social reform; his constant endeavour to bring about a synthesis of the East and the West and his humanitarian approach to politics; and his rise to the status of an international poet. Meticulously researched and sensitively edited, this unique autobiography provides an incomparable insight into the mind of a genius.

Finally in English, Tagore's earliest poems--an erotic sequence between Lord Krishna and his young lover.

A novel loosely based on the erotic explorations of artist Pierre Molinier re-creates the painter's life, from his early dalliances with lady's undergarments to his last lover, a beautiful German woman. Original.

When war broke out in Europe in 1914, political leaders in the United States were swayed by popular opinion to remain neutral; yet less than three years later, the nation declared war on Germany. In Nothing Less Than War: A New History of America's Entry into World War I, Justus D. Doenecke examines the clash of opinions over the war during this transformative period and offers a fresh perspective on America's decision to enter World War I. Doenecke reappraises the public and private diplomacy of President Woodrow Wilson and his closest advisors and explores in great depth the response of Congress to the war. He also investigates the debates that raged in the popular media and among citizen groups that sprang up across the country as the U.S. economy was threatened by European blockades and as Americans died on ships sunk by German U-boats. The decision to engage in battle ultimately belonged to Wilson, but as Doenecke demonstrates, Wilson's choice was not made in isolation. Nothing Less Than War provides a comprehensive examination of America's internal political climate and its changing international role during the seminal period of 1914--1917.

This is a biography of Rabindranath Tagore who won the Nobel Prize in 1913, the first of only two Asian writers to do so. Today he is highly regarded in Bengal. He perceived that the ancient polarities of East and West would be compelled to meet in the 20th century. An educational, social, political and religious reformer, he wrote poetry, short stories, novels, essays and plays, and he painted and composed songs.

A compilation of Ethiopia's social history, devoted to the northern and central highlands, and covering the period from early medieval times to the reign of Emperor Tewodros II.
