The city of Columbus, Ohio, had always struggled to support any professional sports franchise. It's a town where Ohio State University reigns supreme, and everything else is less important. That was until 1991, when the Columbus Chill, a minor-league hockey franchise, arrived. Using Veeckian marketing tactics and on-ice shenanigans, the Chill became the talk of the city and gained a religious local fan base. Based on the success of the Chill, from 1991–99, the city of Columbus was awarded with the Columbus Blue Jackets in 2000, the city's own NHL franchise. Chill Factor follows the wild ride through the eyes of team president and general manager David Paitson, from the early formation of the minor-league franchise through the decision to rattle the status quo by going to the edge and beyond with a marketing and promotional plan that was both edgy and controversial. The success of the Chill after their first season gave the organization the impetus to challenge local civic and business leaders to build a world-class arena and emerge from the shadow of OSU. There were setbacks and triumphs on and off the ice, and eventually the realization that the Columbus of today would not be possible without the aid of the Chill. Chill Factor takes readers into the front office and onto the rink, giving every angle of how a small town was able to get behind a working-class team that fought both on and off the ice. This thrilling account will appeal to those who remember the Chill's reign, as well as those who enjoy seeing the underdog climb the ladder to sports supremacy. Decades after Hitler's fall, Nazis are still trying to kill John Cooper. His marriage destroyed by drinking, John Cooper returns to Cambridge, Massachusetts, trying to recapture the joy he felt as an undergraduate in Harvard University's sacred halls. He is just beginning to piece his life together when he gets a telegram calling him home to Minnesota. The message comes from Buenos Aires, and with Cooper's family history, that can mean only one thing: The Nazis are staging a comeback. To John and his brother, their grandfather was a kind, distinguished old man. But to the American people, he was the worst kind of traitor. An industrialist who spent the 1930s in business with Fascists, he became infamous as "America's Number One Nazi." When Hitler's old lieutenants decide to get together a Fourth Reich, the Coopers are the first family they call. John hasn't even made it to Minnesota when the first attempt on his life comes - a message that if he isn't ready to honor his family legacy, he will die for it.
