Greece's economy and society have undergone important structural changes in recent years as a result of the financial crisis and

# Online Library Christos A Ioannou

consequent austerity policies that have been implemented. The Greek labour market and employment relations system have been subject to immense pressures, leading to fundamental changes both in

the structure of  
institutions and in the  
behaviour of the main  
employment relations actors.  
The present volume  
constitutes a first attempt  
to appreciate the  
consequences of a decade of

Throughout the industrialised world trade

# Online Library Christos A Ioannou

unionists are reforming their organisations as part of a strategy to adjust to new labour market, economic and political circumstances. This volume examines the role of merger activity in this process of reform. The

# Online Library Christos A Ioannou

book identifies the pattern of merger activity, the factors that promote its development and its impact on union structure and governance. Most merger activity is shown to originate in some adverse

# Online Library Christos A Ioannou

environmental change, such as membership decline. Furthermore, there is little evidence to suggest that mergers have improved union performance in the recruitment, retention and organisation of members,

# Online Library Christos A Ioannou

although, in some cases, the reform of systems of membership participation has been facilitated. The shift away from industrial unions has been accelerated by merger involvement, which has also brought into

# Online Library Christos A Ioannou

question the role of confederations where the number of affiliated unions has declined markedly. The book comprises two sections. The first section examines the merger process in ten countries (Australia,

# Online Library Christos A Ioannou

Austria, Denmark, Germany,  
Greece, Norway, Portugal,  
Sweden, UK and US). The  
second section comprises  
three 'horizontal' chapters  
in which authors of the  
national chapters develop  
themes that emerge from the
