"Philippe Rosinski is a leader in the coaching field. Coaching Across Cultures reveals his pioneering multi-cultural approach and innovative global perspective. His book is a treasure for anyone eager to learn how to effectively facilitate human fulfillment and responsible growth." - Laura Berman Fortgang, Author of Take Yourself to the Top and Living Your Best Life As coaches and clients increasingly realize, the demands of business mean that it is now vital to integrate, understand and leverage cultural differences across countries and corporations. Coaching Across Cultures bridges the gap between coaching and interculturalism.

Philippe Rosinski has woven coaching and intercultural communication together into a coherent and accessible whole in Coaching Across Cultures. The book is filled with intriguing examples from multinational companies and includes coaching tools with exercises that put into practice the cultural concepts presented.

Diversity in Coaching, published with the Association for Coaching, explores the impact and implication of difference in coaching. The book looks at how coaches can respond to issues of gender, generational, cultural, national and racial difference. Understanding how diversity impacts upon coaching is a crucial element to coaching effectively in today's diverse society and can give coaches the edge when responding to their coachees need. Written by an international team of coaching professionals, the book provides guidance on understanding diversity and how coaches can adapt coaching styles and techniques to meet individual needs, local demands and cultural preferences. It explores the impact and implication of difference in coaching, providing practical information to help coaches respond effectively to issues of diversity.

Lasting change requires a complete coaching approach The need for a 'master level' of coaching has never been greater in the global economy and interconnected world in which we live. Global Coaching inspires managers and coaches to find meaningful and long-lasting results through an integrated approach, combining coaching strategies from six perspectives-physical, managerial, psychological, cultural, political and spiritual. Philippe Rosinski's pioneering work in bringing the crucial intercultural dimension into the practice of coaching has won him worldwide acclaim. The first European to be designated Master Certified Coach by the International Coach Federation, he is a leading expert in executive coaching, team coaching and global leadership development. He is currently principal of Rosinski & Company, a global consulting firm that helps leaders, teams and organizations unleash their human potential to achieve sustainable high performance. He is an MBA professor for global managers at the Kenichi Ohmae Graduate School of Business in Tokyo, Japan.

Improve student outcomes with data-driven coaching Student-Centered Coaching is grounded on the premise that school-based coaching can be designed to directly impact student learning. Shifting the focus from "fixing" teachers to collaborating with them in designing instruction that targets for student achievement makes coaching more respectful and results-based. The book also underscores the critical role of the principal in fostering a culture of learning. Each chapter includes: A model for designing and implementing student-centered coaching Data-driven coaching tools and techniques focused on student learning Specific practices for leading a student-centered coaching effort

Evidence suggests that research on mentorship has been dominated by the West, and little is known about the cultural variations of the mentoring phenomenon. This book aims to provide a deeper understanding of the contextual interpretation of mentoring by focusing on the Asian experience in countries such as China, India, Korea and Taiwan.

The development of cultural competence is becoming ever more important in our rapidly changing—and digitally expanding—world, not only in the intercultural field, but also in a variety of areas including business and higher education.

Building Cultural Competence brings together a collection of ready-to-use tools and activities to help build cultural competence—from the basics of understanding core concepts of culture to the complex work of negotiating identity and resolving cultural differences. Featuring fresh activities and tools from experienced coaches, trainers, and facilitators around the globe, this collection of over 50 easy-to-use activities and models has been used effectively in countries world wide in settings that range from Fortune 500 corporations to the World Bank, non-profits, and universities.

Learn updates on classic models like the DIE (Description, Interpretation, Evaluation) framework and the U-Curve model of adjustment. Engage in new exercises to help build intercultural competence and see practical, step-by-step instructions on how to effectively facilitate these activities. Stay relevant and have positive impact with clients, organisations, and students with these well organised, easy-to-implement, and high impact collection of frameworks, models and activities. For those who need to build cultural competence in others, this is a must-have book.

"I wrote this book because I believe that there is a serious gap in what has been written and communicated about cross-cultural management and what people actually struggle with on the ground."—From the Introduction What does it mean to be a global worker and a true "citizen of the world" today? It goes beyond merely acknowledging cultural differences. In reality, it means you are able to adapt your behavior to conform to new cultural contexts without losing your authentic self in the process. Not only is this difficult, it's a frightening prospect for most people and something completely outside their comfort zone. But managing and communicating with people from other cultures is an essential skill today. Most of us collaborate with teams across borders and cultures on a regular basis, whether we spend our time in the office or out on the road. What's needed now is a critical new skill, something author Andy Molinsky calls global dexterity. In this book Molinsky offers the tools needed to simultaneously adapt behavior to new cultural contexts while staying authentic and grounded in your own natural style. Based on more than a decade of research, teaching, and consulting with managers and executives around the world, this book reveals an approach to adapting while feeling comfortable—an essential skill that enables you to switch behaviors and overcome the emotional and psychological challenges of doing so. From identifying and overcoming challenges to integrating what you learn into your everyday environment, Molinsky provides a guidebook—and mentoring—to raise your confidence and your profile. Practical, engaging, and refreshing, Global Dexterity will help you reach across cultures—and succeed in today's global business environment.
