Revalidation – LIANZA

Revalidation is the new process that all nurses and midwives will need to go through in order to renew their registration with the NMC. This microsite is home to all the information you need to guide you through your revalidation journey.

Supporting students poses a significant challenge for nurse supervisors and other healthcare professionals in today's world of practice. Recent concerns over the fitness to practice of nursing and healthcare students at the point of registration require new approaches to practice learning and supervising the practitioners of the future. This book explores challenging issues like learners in difficulty and considers how to develop resilience and wellbeing from the perspective of both the student and the supervisor.

Now in its Third Edition, this best-selling textbook continues to support you on your journey from being an emerging registered healthcare professional through to becoming a competent care manager. Action points, case studies and strong practice guidelines enable you to understand how leadership and management theory applies to the care you deliver in a wide range of care settings. Fully updated throughout, the new edition includes: More case studies and examples from a wide range of care settings and countries. New key topics such as dimensions of leadership, NHS Change Model, transition to registered practitioner and revalidation requirements, emotional intelligence and resilience. A companion website with access to further case studies, journal articles and web links. This book is essential for nursing, health and social care students taking modules on leadership, management and transition to practice in their final year, as well as for newly qualified professionals or those seeking to refresh their skills.

Covering the issues, themes and principles that explain what it means to be a nurse today, this book provides the theory students need to know and applies it to the diverse patient groups and settings that students will encounter on their placements. Key features of the book are: · Introduction to the core aspects of adult nursing · An evidence-based approach with discussion of literature, policy and research and suggested further reading for every chapter · Over 30 case studies to help students understand the realities of practice across a range of settings including primary care and the community · Stop and think boxes which challenge assumptions and encourage reflection · A companion website with sample questions for lecturers to use in seminars, multiple choice questions for student revision and free SAGE journal articles The book has been closely developed in line with the NMC Standards and Essential Skills Clusters and supports students across their entire degree programme as they develop into nurses of the future ready to deliver and lead care.

What is reflective practice and why is it important? How do I write my first reflection? Learn how to carry out reflective practice quickly and easily with this beginner's guide for nurses. Written for nursing students and registered nurses, this book helps build confidence in writing reflectively by using clear step-by-step guidance, insightful case studies, learning activities, and by addressing commonly asked questions from nurses and nursing students. The book has three sections: the first starts with a simple model to help students practice a first reflection and explains how to use reflection as part of assessed work at university. The second section focuses on reflecting in practice and finding the time to do it in busy work situations. The final section helps students to think more deeply about models and theories of reflection, to develop the skills they will need to pass the final year of their course. Essential reading for any nursing student new to reflective practice or registered nurse wanting to improve their reflective writing skills.

Are you prepared for revalidation? All nurses and midwives in the UK are required to complete the revalidation process every 3 years in order to renew their registration. This book explores key areas of revalidation such as adult learning and CPD, personal reflection and growth, and improving practice by obtaining and learning from practice-related feedback. This handy guide contains a wealth of tips and advice for all nurses and midwives to help to make the process more understandable and manageable. Key features: • Practical suggestions and examples for engaging in relevant continuing professional development (CPD) • Introduces methods to help complete the reflective accounts • Provides support to prepare for the reflective discussion and confirmation process • Features 'Time Out' boxes and activities throughout that can be used for reflection on practice and support personal development • Practical ideas for portfolio development Essential reading for all NMC registrants, regardless of practice setting, as well as student nurses and midwives who will need to undergo revalidation throughout their careers. Employers will also find this book helpful when supporting staff with revalidation. "I found this book very easy to read. It shows clearly how to incorporate revalidation into our practice and make it as stress-free as possible!" Myrna Meville, Registered Nurse, UK "The book is structured in an accessible way and is designed to really assist registrants through the revalidation process. I particularly like the frequent activities built in as the reader progresses through the chapters." Professor Ian Murray, Head of School of Nursing and Midwifery, Robert Gordon University, UK "This book is a first of its kind and as the title suggest it's a journey where the authors walks with the readers step by step to a successful revalidation destination. The authors are evidently well vast with this subject matter and had produced a book that is beautifully laid out, easy to read without being patronizing." Esther Kuria

This new edition of the Oxford Handbook of Learning and Intellectual Disability Nursing has been fully updated, with a greater focus on older people with learning and intellectual disabilities and mental health issues, as well as bringing all recommendations in line with current guidelines. Since the first edition of this book was published, services for people with learning disabilities and their families have become more community-based, and the demography of the population of people with learning disabilities has changed to include many older people, and children and young adults with complex physical health needs. This handbook provides clear information for readers on practical steps that may be taken to actively engage with people who have learning disabilities, to enable effective care in which they are involved as much as possible with decisions that affect them. This book also covers differences in legislation and social policy across the constituent countries in the United Kingdom and Ireland, including changes that have been implemented since serious case reviews into institutional abuse. An emergencies section provides key information at critical times in practice. The chapter on practice resources has been fully revised to bring together the latest tools to support nurses, complete with links for easy access. Written by experienced practitioners who are recognised experts in their areas of speciality, the Oxford Handbook of Learning and Intellectual Disability Nursing is an invaluable guide for students, community and hospital based nurses, and all those who work with people with intellectual disabilities as part of a multidisciplinary team.
