This classic and popular introduction to the sciences developed to interpret and understand Islam's holy book is ideal for all serious students of the Koran. Precise, yet comprehensive, it covers the traditional disciplines, including the meaning and contexts of revelation, the history and transmission of the text, and exegesis, as well as more contemporary topics like the recording of the Koran, the history of Orientalist approaches, and a survey of translations. It ends with a guide for the correct recitation of, and etiquette toward, the Koran. Chapter 1: The Qur'an and Revelation Chapter 2: Transmission of the Qur'anic Revelation Chapter 3: The Qur'an in Manuscript and Print Chapter 4: Form, Language and Style Chapter 5: Understanding the Text Chapter 6: Interpreting the Text Chapter 7: Some Related Issues Chapter 8: Reading and Studying the Qur'an Ahmad Von Denffer was born in Germany in 1949. He studied Islamics and Social Anthropology at the Universty of Mainz, where he also attended additional courses in the Department of Missiology. His special interests include Christian-Muslim relations. He has made a number of contributions to scholarly journals and has several publications to his credit. He joined the Islamic Foundation as Research Fellow in 1978 and is presently working with the Islamic Centre, Munich.

The book is an insight into the facts of the Qur'an, nature of revelation, sequence of revelations different readings, the miracles of the Qur'an and so on. They have been explained in everyday language and they remove all doubts and misgivings. The criticism of the orientalist are answered with authoritative references.

This study illustrates why the language of the Qur'an is miraculous, unique, and evidence of divine authority. The author compares the language of the Qur'an with the language of pre-Islamic poetry, the Prophet's words (hadith), and the language of the Arabs both past and present, to demonstrate that although the Qur'an was revealed in Arabic it was at the same time an Arabic which was entirely new. Original and early Muslim audiences viewed this as miraculous and responded to the Qur'an's words, sounds, rhythms, etc. in a manner consistent with a deeper appreciation of its beauty and majesty which modern ears, trained by familiarity, and despite being surrounded by all manner of dictionaries and studies, are at a loss to capture. The author attempts to remove this veil and present the Qur'an to readers as if hearing it for the first time, to bring to life some of this wonder. In doing so he guides readers to appreciate the beauty of the Qur'an, to become more immersed in it, and to have a clearer understanding of its structure and flow. Devoting special attention to Surah Al Muddaththir, to underpin his analysis, Saeh thus brings the Revelation to life, to demonstrate that each surah has distinct features and characteristics that make it stand out uniquely within the design and sweep of the whole.
