The first of the 19 Oz titles she authored, Ruth Plumly Thompson's 'The Royal Book Of Oz' (1921) has met with occasional opposition over the years, largely due to the bold steps Thompson took in addressing questions Oz creator L. Frank Baum's 13 original books left unanswered.

London, 1196. At the command of Richard the Lionheart, Sir John de Wolfe has left his beloved West Country for the Palace of Westminster, where he has been appointed Coroner of the Verge. But with the king overseas, embroiled in a costly war against King Philip of France, Sir John is dismayed to discover that the English court is a hotbed of greed, corruption and petty infighting. The murder of one of the palace clerks, stabbed in broad daylight and thrown into the River Thames, leads John to suspect that there's a conspiracy underway to overthrow King Richard. And with the visit of the dowager Queen Eleanor fast approaching, the new Coroner must risk his life to prove his suspicions are right, root out the traitors within and prevent a national catastrophe.

How a humble Devon knight became a king's coroner: the thrilling prequel to the perennially popular Crowner John medieval mystery series, set in twelfth-century England. 1192. At the end of the Third Crusade, Richard the Lionheart, King of England, sets sail for home from the Holy Land. Sir John de Wolfe, a Devon knight, is part of the king's small bodyguard on that ill-fated voyage – and during the journey, Sir John's loyalty to the monarch is tested to the limit. On his return, Sir John finds England simmering with rebellion. Richard's younger brother John has used the king's absence to plot to seize the throne, and the country is a hotbed of unrest. Discovering a body washed up on the shores of the River Exe, its throat cut, Sir John deduces from the device etched on the victim's signet ring that he was a king's courier. Tasked by Sir Hubert Walter, the Chief Justiciar, to find out why the man died and who killed him, de Wolfe finds himself drawn unwillingly into affairs of state. His new career as a king's coroner is about to begin . . .

The first in a new series from author of the 'Crowner John' books - 1955. Forensic pathologist Richard Pryor uses his 'golden handshake' to set up in private practice with scientist Angela Bray. A friendly coroner gives them a start, and when two women both claim that human remains found near a reservoir are their relatives, the dilemma is given to them to investigate. Written by a former Home Office pathologist, the story carries the stamp of forensic authenticity.

Cardiff-based Professor Knight, CBE, became a Home Office pathologist in 1965. During his 40-year career, he performed over 25,000 autopsies and was involved in many high-profile cases. The author of numerous non-fiction books, he has written fourteen novels in the Crowner John mystery series. Visit www.bernardknight.homestead.com

Who would dare kill one of the king's foresters? Coroner Sir John investigates in this characterful instalment in the Crowner John medieval mystery series, set in twelfth-century England. Devon, 1195. A tall, brown mare gallops into the sleepy village of Sigford, its rider dragged by the stirrup, the broken shaft of an arrow protruding from his back. The embroidered badge on the dead man's tunic identifies him as a senior officer of the Royal Forest – a team of men tasked with upholding the harsh laws that prevent everyone but the king from hunting in England's forests. The punishment for killing a deer on the king's land is mutilation . . . or death. With plenty of money still in the victim's purse, it's clear that robbery isn't the motive. But what is? When a second forest officer is violently attacked, county coroner Sir John de Wolfe begins to uncover evidence of a sinister conspiracy. And to his deep suspicion, his unscrupulous brother-in-law, the sheriff Sir Richard de Revelle, seems to be taking an unusual interest in the case . . .

First multi-year cumulation covers six years: 1965-70.

DIVThe summer of 1273 is peaceful for most of England, but not for Prioress Eleanor of Tyndal Priory. Her friend, Crowner Ralf, is newly widowed with a baby. And her new anchoress is welcoming visitors to her window at night: one of them a man the prioress secretly loves. Now his loyalty to her as head of Tyndal Priory is suspect. Then Martin the Cooper is poisoned at the local inn. Martin had a wealth of enemies. The killer could be any of them. No one likes the direction the evidence points, but God's justice must be rendered even for the most forsaken soul. Against an authentic backdrop of medieval life and lore, Royal once again brings alive characters who are true to their period yet exhibit emotions and feelings that 21st-century readers will recognize as their own.
