By using non-invasive tomographic scans, modern neuroimaging technologies are revealing the structure of the human brain in unprecedented detail. This spectacular progress, however, poses a critical problem for neuroscientists and for practitioners of brain-related professions: how to find their way in the current tomographic images so as to identify a particular brain site, be it normal or damaged by disease? Prepared by a leading expert in advanced brain-imaging techniques, this unique atlas is a guide to the localization of brain structures that illustrates the wide range of

neuroanatomical variation. It is based on the analysis of 29 normal human brains obtained from three-dimensional reconstructions of magnetic resonance scans of living persons. The Second Edition of this atlas offers entirely new images, all from new brain specimens.

From Mario Batali, superstar chef and author of *Molto Italiano*, comes the ultimate handbook on Italian grilling, which will become an instant must-have cookbook for home grillers. Easy to use and filled with simple recipes, Mario Batali's new grilling handbook takes the mystery out of making tasty, simple, smoky Italian food. In addition to the eighty recipes and the sixty full-color photographs, *Italian Grill* includes helpful information on different heat-source options, grilling techniques, and essential equipment. As in *Molto Italiano*, Batali's distinctive voice provides a historical

and cultural perspective as well. Italian Grill features appetizers; pizza and flatbreads; fish and shellfish; poultry; meat; and vegetables. The delicious recipes include Fennel with Sambuca and Grapefruit; Guinea Hen Breasts with Rosemary and Pesto; Baby Octopus with Gigante Beans and Olive-Orange Vinaigrette; and Rosticciana, Italian-Style Ribs.

A self-absorbed rooster resents being cooped up in the henhouse every evening. He wants to meet the nighttime creatures and have his own adventures. One night, he escapes and learns a valuable lesson about community.

"For 300 years, Sag Harbor has been a prism reflecting facets of American history, from its heyday as a prominent whaling port worthy of mention in Moby-Dick, to a factory town shipping out Bulova watches, to its latest incarnation as an alternative coastal retreat to the exclusive Hamptons. Stephen Longmire explores the stories of this renowned eastern Long Island community in Keeping Time in Sag Harbor, a unique combination of fine-art photographs and historical text." "Architecture is a cornerstone of Sag Harbor's charm, because the village has preserved a full range of buildings, dating from the American Revolution to the present. These include the stately eighteenth- and nineteenth-century mansions lining what realtors have dubbed "Captains Row"; the modest homes of generations of working people from diverse backgrounds; the commercial facades of Main Street; and preserved public buildings

such as the early Custom House and Minard Lafever's Whalers' Church." "The work to protect this architecture - and the economic and ecological balance it embodies - in the face of booming real estate development is at the heart of Longmire's account. Interviews with residents, both new and old, chart the evolving character of the village, exploring how it has struggled to retain its identity while learning to sustain itself on tourism. Anchoring this story are Longmire's own color photographs of Sag Harbor today and archival photographs and maps that reveal the many layers to the community's sense of place." "Keeping Time in Sag Harbor is an intimate portrait of a special place that is changing fast, despite almost all of the town being listed on the National Register of Historic Places. Through Longmire's images and words, we appreciate why Sag Harbor is both a unique American village and

an example of what is happening to communities across the United States, from Santa Fe to South Beach." --Book Jacket.
