Despite the successful destruction of the Atumra's Chicago headquarters by AfterLife, Wes discovers there is no relief from the surge of attacks being waged against them by Atumra soldiers. Committed to their pursuit of gaining supremacy over the living, the Body has appointed a nameless leader to take Seth's place. Additionally, Seth is working in Washington D.C. to build an independent army of his own. Attempting to maintain the peace and protect the living while fighting defensively against two fronts, Wes and the other AfterLife members must make their own pact with a group of antemorts known as the Isisians in an effort to turn things in their favor. The future of all mankind, antemort or Mortui, may depend on it.AfterLife Allegiances, the second book in the AfterLife series, is a fast paced, compelling story of shifting alliances and deception that takes the reader further into the world of the Mortui and the escalating struggle between the living and the dead. Even after death the battle to survive continues and the need for strong, trustworthy allegiances is greater than ever.

While supervising a small group of interns at a major New York medical center, Dr. Robert Marion asked three of them to keep a careful diary over the course of a year. Andy, Mark, and Amy vividly describe their real-life lessons in treating very sick children; confronting child abuse and the awful human impact of the AIDS epidemic; skirting the indifference of the hospital bureaucracy; and overcoming their own fears, insecurities, and constant fatigue. Their stories are harrowing and often funny; their personal triumph is unforgettable. This updated edition of The Intern Blues includes a new preface from the author discussing the status of medical training in America today and a new afterword updating the reader on the lives of the three young interns who first shared their stories with readers more than a decade ago.

Ahmad is a man who likes a quiet life - his family and the falcons are all that matter to him. When civil war throws al-Andalus into chaos and the rightful caliph is imprisoned, Ahmad faces a difficult choice - to help the man he has known since childhood and risk everything or carry on with his uneventful life.

Enduring a seemingly invisible existence on the sidelines, Ellen Homes records her observations of the world in notebooks until the night she saves a blind woman from a mugging, irrevocably transforming her own life.

The little town of Nerja, on Spain's Costa del Sol, nestles under a range of mighty mountains. Less than an hour's drive from Malaga airport, these are the Sierras de Tejeda, Almijara Y Alhama. This guidebook describes 24 graded day walks suitable for all abilities, and range from gentle strolls to serious challenges up to high summits. The routes are described step by step and illustrated with extracts from the official IGN mapping with lots of extra information about the natural environment and local history. Any one of the routes in this guidebook could be done in a single day trip from Nerja, making the town a good base for the area. With a season that lasts all year, it's no wonder that this area of southern Spain is a popular destination for walkers.

Stella "I've been in and out of hospitals for the past ten months. I've had half my liver removed and even though this time the doctors are very optimistic that they've removed all of the tumours, they can't be sure. In another three months they want me here again for a check up. Right now I feel better than I've ever felt. I know the damn thing is gone, at least for the moment. Despite that, I can't make any plans for the future, not yet. I need to go somewhere where nobody knows me, where I can relax and maybe even forget about all this. Where I can meet people who don't think of me as the girl who lost her father and her brother in a car accident, and who has cancer. I want to have fun, even if it's for a couple of months." When Stella decides to visit her estranged cousin Lisa in Genoa, she has no idea Italy will give her a new reason to live. Max "Her gaze locked on a scene so beautiful, the picturesque beach paled in comparison. A lifeguard emerged from the water, his orange trunks stuck to his legs and water dripping all over him. He shook his head to get rid of some of the water in his hair and Stella felt as if everything started developing in slow motion - tiny drops of water slid from his neck down his broad chest and muscular arms, along a weaving tattoo on his right shoulder, and continued downwards towards his chest and washboard stomach, finally getting lost in the waistband of his trunks. A part of another tattoo peeked over his trunks on his left hip, the other part hidden under them. It was a total Baywatch moment." Their love is epic. But there are too many things keeping them apart. "How could you keep this from me, Lisa? If you had told me the first day I met him, I would have avoided him like the plague. Nothing would have happened between us." "I kept your secrets, too, Stella." Are Max and Stella strong enough to fight not only for their love, but for their lives?

"You're not doing very much at the moment, darling. I don't suppose you'd care to house-sit for a while?" Thus begins the irresistible story of two fixer-uppers-an old house and a young woman-and their efforts to recapture their true luster. When Hetty Longden, freshly dumped and brokenhearted, agrees to look after her great-uncle's long-abandoned mansion in the British countryside, she's at something of a lifetime low. With no job, no lover, no prospects, and no particular talent for resuscitating crumbling estates, she hope for nothing more than some good old-fashioned escape. What she finds includes a cast of quirky an ever-present neighbors, a couple of SNAGS (Sensitive New Age Guys), some very humorless bank officials, two disarming little canines, one gracious, dilapidated, romantic old house, and, just maybe, enough elbow grease to polish everything up again. A British bestseller that's as inviting as an elegant old house full of unexplored rooms (after a good scrubbing-down, of course), Sately Pursuits is the funniest, smartest, and warmest read of the season.

In search of a way to worship that is relevant today and into the twenty-first century, Moeller proposes an approach based on the "great commandment" to love God and one's neighbor as oneself. With special attention to the time, space, sounds, sights, touches, and symbols that form the context of every worship service, she argues for a collaborative approach to the worship service in which the participants are involved from preparation to celebration. Illustrating this highly evocative, thoroughly feminist theology of worship is a sample service that pays particular attention to how the process and design of worship impact the experience of the worshippers.

By the end of the 10th century al-Andalus was a rich and peaceful country, but when the Omayyad caliph died and left an eleven-year-old son as his heir, things began to change. The eventual disintegration of that powerful dynasty had begun. The young caliph was imprisoned in his beautiful palace, isolated and cut off from the Royal Court, while his ruthless regent and his ambitious mother battled over who should rule. The Eye of the Falcon is the second novel in this series about Muslim Spain. It is a story of intrigue and murder, rich with the historical details of an exotic way of life, long disappeared.
