Get paid faster and keep more detailed patient records with CDT 2020: Dental Procedure Codes. New and revised codes fill in the coding gaps, which leads to quicker reimbursements and more accurate record keeping. CDT 2020 is the most up-to-date coding resource and the only HIPAA-recognized code set for dentistry. 2020 code changes include: 37 new codes, 5 revised codes, and 6 deleted codes. The new and revised codes reinforce the connection between oral health and overall health, help with assessing a patient's health via measurement of salivary flow, and assist with case management of patients with special healthcare needs. Codes are organized into 12 categories of service with full color charts and diagrams throughout, in spiral bound format for easy searching. Includes a chapter on ICD-10-CM codes. CDT 2020 codes go into effect on January 1, 2020 – don't risk rejected claims by using outdated codes.

This largely revised second edition comprehensively reviews the need and rationale for the integration of medical and dental patient data. The reader will find extensive guidance on issues involved with care and data integration, and how to achieve an integrated model of healthcare. The book discusses how the use of state-of-the-art, fully integrated (dental-medical), electronic health records can improve clinical, financial as well as societal outcomes. In the book you will also find different aspects that play a role in integration including existing clinical software implementations (and their paths for integration), clinical touch points, and how current and future developments will facilitate the integration process in a more efficient way. This second edition of Integration of Medical and Dental Care and Patient Data details the available methods and technologies for successfully integrating patient medical and dental data. It is, therefore, an important and timely update for informaticians and a broad range of both dental and medical professionals and other health professionals (dental assistants, hygienists, nurses) as well as clinical students entering the professional environment.

Wondering how the most accomplished leaders from around the globe have tackled their toughest challenges? Now you can find out- with Lessons Learned. Concise and engaging, each volume in this series offers 12-14 insightful essays by top leaders in industry, the public sector, and academia on the most pressing issues they've faced. The contributors share surprisingly personal anecdotes and offer authoritative and practical advice drawn from their years of hard-earned experience.

This report looks at the state of health in Luxembourg.

CDT 2020: Coding Companion: Training Guide for the Dental Team helps coders understand the complexities of dental procedure codes and gain the skills to code more accurately and efficiently. A self-guided training tool, it provides hundreds of scenarios and Q&A, based on inquiries the ADA has received from dentists and their teams. Ideal for use with CDT 2020, it features 100 coding scenarios. 175 coding Q & A, a chapter explaining code changes in detail, and a section on ICD-10-CM Diagnosis Codes.

This profile provides a concise and policy-relevant overview of health and the health system in Estonia as part of the broader series of the State of Health in the EU country profiles. It provides a short synthesis of: the health status in the country; the determinants of health, focussing on behavioural risk factors; the organisation of the health system; and the effectiveness, accessibility and resilience of the health system. This profile is the joint work of the OECD and the European Observatory on Health Systems and Policies, in co-operation with the European Commission.
