The phenomenon of Spike Lee continues with this revealing and engaging look at his outstanding career, his creative process, and the screenplay for his dynamic movie *Do The Right Thing*. Spike Lee burst full formed into the screen world with his award-winning, commercially successful independent film *She's Gotta Have It*. In the few short years following this stellar debut he has established himself as a force to be reckoned with in the film industry and in American popular culture. This book reveals Spike Lee as a Hollywood iconoclast and gifted visionary and takes us through the dramatic sequence of events that brought the movie *Do The Right Thing* to fruition. It is a testimonial to his developing genius, written in the stingingly funny and informed language of Spike Lee.

With its unique union of theory and application and its well-organized, easy-to-use design, *Moral Choices* has earned its place as the standard text for college ethics courses. This fourth edition offers extensive updates, revisions, and three brand new chapters all designed to help students develop a sound and current basis for making ethical decisions in today's complex postmodern culture. *Moral Choices* outlines the distinctive elements of Christian ethics while avoiding undue dogmatism. The book also introduces other ethical systems and their key historical proponents, including Plato, Aristotle, Augustine, Thomas Aquinas, and Immanuel Kant. After describing a seven-step procedure for tackling ethical dilemmas, author Scott Rae uses case studies to address some of today's most pressing social issues. He guides students in thinking critically and biblically about issues, including: Abortion Reproductive Technologies Euthanasia Capital Punishment Sexual Ethics The Morality of War Genetic Technologies and Human Cloning Ethics and Economics NEW:

The #1 Principle of Sustainable Business Success Is Simpler Than You Think “ Do the Right Thing is about how any company can stay true to its soul. Jim Parker ’ s deep and abiding belief in the power of people and culture in building a business of lasting worth is evident everywhere; so too is his humility and selflessness as a leader--his stories are not about his own achievements, which are many, but those of the people he led, one of the great success stories of our time. ” --Sean Moriarty, CEO, Ticketmaster “ Do the Right Thing offers insightful views into the culture, leadership, and decisions that build great companies the right way. A must read for my management team. THIS BOOK ROCKS. ” --Kent Taylor, Founder and Chairman, Texas Roadhouse Restaurants “ The book is a fun read filled with memorable stories that get at the heart of what it takes to lead in a way that simultaneously satisfies employees, customers, and shareholders. Jim Parker plays the role of eloquent detective and ferrets out the interweaving parts that distributed leadership, culture, values, and teamwork play as the underlying layers of a company ’ s success. This is a book about heroes at all levels and the environment needed to create those heroes. A must-read for today ’ s leaders. ”

--Professor Deborah Ancona, Seley Distinguished Professor of Management and Faculty Director of the MIT Leadership Center, Sloan School of Management “ You ’ ll laugh and cry reading Jim ’ s book, and probably won ’ t be able to put it down. It will forever change the way you view the employees in your organization. ” --Beverly K. Carmichael, Member, Board of Directors, Society for Human Resource Management People matter most. You know that. But most companies would rather slash costs, cut headcount, replace well-paid employees with lower-paid employees or outsourced workers, and reduce customer service. No wonder so many fail – while others focused on doing the right thing remain profitable and growth oriented for decades. James F. Parker shows why “ doing the right thing ” isn ’ t just naïve “ feel-goodism: ” it ’ s the most powerful rule for business success. Parker ’ s stories won ’ t just convince you: They ’ ll move you. Naïve? No way. In this book, Southwest Airlines ’ former CEO proves why doing what ’ s right is the #1 rule of business success. James F. Parker tells how after 9/11, Southwest made three pivotal decisions: no layoffs, no pay cuts, and no-hassle refunds for any customer wanting them. The result: Southwest remained profitable and its revenue passenger miles for 4Q01 held steady while the rest of its industry nearly collapsed...and Southwest ’ s market cap soon exceeded all its major competitors combined. These pivotal decisions grew naturally from Southwest ’ s culture of mutual respect and trust. Parker offers deeply personal insights into that culture, revealing how those same principles are used by other people and organizations, showing you that it ’ s really not that hard to Do The Right Thing! Why doing what ’ s right is the surest way to optimize and sustain value Putting people first...honestly, for real Finding great leaders at every level of the organization Hiring for attitude, training for skills Achieving unprecedented levels of teamwork (and fun!)

Spike Lee's *Do The Right Thing* (1989) is one of the most popular and celebrated examples of the African-American new black film wave. Set during the hottest day of a hot summer in New York City, the film's ensemble cast, including Lee himself, brilliantly play out the edgy negotiations and dramas of a racially and culturally diverse working-class Brooklyn neighborhood. Contrary to Hollywood's markedly cautious treatment of 'race' and its confinement to the South and the past, *Do The Right Thing* offers a nuanced portrayal of black urban life. From hip-hop fashions, Afrocentric colors and rap music, to police brutality, gentrification, non-white immigration, de-industrialization and joblessness, *Do The Right Thing* depicts it all, from a contemporary, African-American point of view. In his insightful study of the film, Ed Guerrero discusses how it epitomizes Spike Lee's powerful impact on the representation of race and difference in America, the progress of black film-making and the rise of multicultural voices in the media. This new edition includes a foreword by the author reflecting on Lee's subsequent film-making career and on an America in which African-Americans still contend with racial discrimination and police brutality. Guerrero emphasizes Lee's especially timely understanding of black film-making as a complex act, mixing the skills of

art, politics, and business in order to fashion a creative practice that confronts institutional discrimination and power relations head on.

Like Mooki, the hero of Spike Lee's film "Do the Right Thing," artificially intelligent systems have a hard time knowing what to do in all circumstances. Classical theories of perfect rationality prescribe the "right thing" for any occasion, but no finite agent can compute their prescriptions fast enough. In *Do the Right Thing*, the authors argue that a new theoretical foundation for artificial intelligence can be constructed in which rationality is a property of "programs" within a finite architecture, and their behavior over time in the task environment, rather than a property of individual decisions. *Do the Right Thing* suggests that the rich structure that seems to be exhibited by humans, and ought to be exhibited by AI systems, is a necessary result of the pressure for optimal behavior operating within a system of strictly limited resources. It provides an outline for the design of new intelligent systems and describes theoretical and practical tools for bringing about intelligent behavior in finite machines. The tools are applied to game planning and realtime problem solving, with surprising results.

Walter E. Williams (1936 – 2020) was the John M. Olin Distinguished Professor of Economics and chairman of the economics department at George Mason University, a nationally syndicated columnist, and the author of several books. This thought-provoking book contains nearly one hundred of Williams's most popular essays on race and sex, government, education, environment and health, law and society, international politics, and other controversial topics.

A collection of essays on Spike Lee's *Do the Right Thing*.

Tom Cooper combines the power of storytelling with analytical insight to help all of us - whether we are students, teachers or just curious readers - think more clearly about what it takes to make the best ethical decisions we can, even under difficult circumstances. A fascinating and inspiring read. Tamar Schapiro, Professor of Philosophy, Massachusetts Institute of Technology Tom Cooper's portraits of courage, an eclectic compendium of stories of leaders who faced monumentally difficult moral choices, remind us of the importance of the interplay of philosophy and history: Philosophical abstractions mean little outside the context of their application. Spanning 25 centuries, from Queen Esther and Socrates to Rachel Carson and John F. Kennedy, *Doing the Right Thing* takes 12 "ethics exemplars" and with grace and clarity -- and considerable insight -- transforms them into an original and compelling account of what it takes to "open your mind" and "open your heart." Theodore L. Glasser Professor of Communication, Stanford University Moral courage of people in power is never irrelevant. But if ever there was a time in which it was so searingly relevant it surely is today. And Tom Cooper is the perfect chronicler to bring this to our rational attention, via a series of twelve portraits of great ethical movers of history. Deeply researched, keenly reasoned, colorfully written with memorable detail, Cooper's book will, with any luck, inspire and guide great moral leaders in our time and well into the future." Paul Levinson, Professor of Communication and Media Studies, Fordham University I regard Tom Cooper as one of the world's leading contemporary communication ethics specialists. This, his latest book, carries all the passion, theoretical richness, and original insights which I associate with his work overall. Richard Lance Keeble, Professor of Journalism, University of Lincoln and Liverpool Hope University This profound book teaches moral philosophy with ingenuity. Its stunning transformation of moral philosophy into public discourse is historic. *Doing the Right Thing* has the promise of becoming a twenty-first century classic. Clifford Christians, Research Professor of Communication, University of Illinois

Now in paperback, one of the first books to help navigate the profound emotional challenges of caring for elderly parents in a strained parent-child relationship.

A common metaphor for modern life is 'keep the plates spinning', but it is becoming increasingly hard to
