"preface Experience Human Development helps students experience the human side of development by exposing them to culture and diversity, immersing them in practical application, and helping them study smarter through personalized learning and reporting. Experience Human Development takes a practical approach to research and recognizes that just as people develop in their own way, your students also learn in their own ways. With our adaptive, personalized learning program, LearnSmart, students are guided toward success on their terms. With integrated resources like Milestones of Child Development, Milestones: Transitions, and short author tutorials on some of the most challenging learning objectives, Experience Human Development makes a difference for your students. Better Data, Smarter Revision, Improved Results Here's how it used to be: The revision process for a new edition typically began with asking several dozen instructors what they would change and what they would keep. Also, experts in the field were asked to provide comments that point out new material to add and dated material to remove. Using all these reviews, authors would revise the material. But now, a new tool has revolutionized that paradigm. LearnSmart, a tool powered by McGraw-Hill Connect Lifespan Development, is the adaptive learning system that provides students with an individualized assessment of their own progress. McGraw-Hill authors have access to real student data from this tool to create their revisions"--
