Harrison 8th grader Kevin Enright helped make this September special for a group of Yonkers students. Written by Zach Oliva September 16, 2011. More than 600 brand new backpacks were delivered to a group of excited Yonkers students this month, and a Harrison student played a big part in making their back-to-school dream a reality.

Extraordinary and up-to-date problems have been added to this edition with other new features including text learning aids to help students understand accounting and streamlined text discussions for more effective understanding of core topics.

With its tried-and-true framework and respected author team, Horngren/Harrison/Oliver's Accounting—when combined with MyAccountingLab—is the trusted choice for instructors and students of Principles of Accounting. To package MyAccountingLab with Accounting, order ISBN 0132785862. Financial & Management Accounting An Introduction seventh edition Pauline Weetman The seventh edition of this well-respected and fully updated text retains all of the features that have contributed to the book's popularity: focus on the accounting equation, student activities and real-life commentaries throughout each chapter, a clear and accessible writing style, and inclusion of real-world case studies. With a strong emphasis on the Conceptual Framework of the International Accounting Standards Board, Financial & Management Accounting: An Introduction guides students in understanding the "why" and not just the "what" of financial and management accounting. Key features: New case studies containing examples from real-world companies New coverage on fair value throughout New coverage of the Strategic Report and Directors' Report Fully up-to-date with International Financial Reporting Standards, IFRS Focuses on specific knowledge outcomes, with end-of-chapter self-evaluation Questions are graded according to difficulty to test student understanding Definitions and terminology is fully in-line with the revised IASB Conceptual Framework Experience-driven conversations between two managers are included throughout, providing a practical examination of real life scenarios. Financial & Management Accounting: An Introduction is aimed at first-level undergraduates on business studies degrees taking introductory financial and management accounting classes; first-level specialist accounting undergraduate students; introductory core accounting for MBA and postgraduate specialist Masters students, focusing on analysis through the accounting equation and a questioning approach to problem solving; and professional courses where accounting is introduced for the first time. "MyAccountingLab advert" Pauline Weetman BA, BSc (Econ), PhD, CA, FRSE, is Professor Emerita of Accounting at the University of Edinburgh, and has extensive experience of teaching at undergraduate and postgraduate level, with previous chairs held at Stirling, Heriot-Watt, Strathclyde and Glasgow Universities. She received the Distinguished Academic Award of the British Accounting Association in 2005. She has convened the examining board of the Institute of Chartered Accountants of Scotland and was formerly Director of Research at ICAS.

Accounting and the Business Environment; Recording Business Transactions; The Adjusting Process; Completing the Accounting Cycle; Merchandising Operations; Merchandise Inventory; Internal Control and Cash; Receivables; Plant Assets and Intangibles; Current Liabilities and Payroll; Long-Term Liabilities, Bonds Payable, and Classification of Liabilities on the Balance Sheet; Corporations, Paid-In Capital, and the Balance Sheet; Corporations: Effects on Retained Earnings and the Income Statement Statement of Cash Flows; Financial Statement Analysis; Introduction to Management Accounting; Job Order and Process Costing; Activity-Based Costing and Other Cost-Management Tools; Cost-Volume-Profit Analysis; Short-Term Business Decisions; Capital Investment Decisions and the Time Value of Money; The Master Budget and Responsibility Accounting; Flexible Budgets and Standard Costs; Performance Evaluation and the Balanced Scorecard MARKET: For anyone interested in learning the principles of accounting.

For Principle of Accounting Courses Students understand (or "get it") right after you do a problem in class. However, as soon as they leave class, their ability to do the problems and complete their homework diminishes with each passing hour. Often times this results in students struggling to complete their homework on their own. Even worse, the frustration can lead to students quitting on the material altogether and falling behind in the course. As a result, an entire class can fall behind as instructors attempt to keep everyone on the same page. With the Accounting 8e Student Learning System, all features of the student textbook, study resources and online homework system are designed to work together to provide students with more "I Get It!" moments. The consistency, repetition and strong details throughout the entire student learning system allow students to achieve success both inside and outside the classroom while keeping both instructors and students on track.

Extraordinary and up-to-date problems have been added to this edition with other new features including text learning aids to help students understand accounting and streamlined text discussions for more effective understanding of core topics.
