First published in English in 1972 and long out of print, 62: A Model Kit is Julio Cortázar's brilliant, intricate blueprint for life in the so-called "City."

This is the story of two young writers whose lives are playing themselves out in Buenos Aires and Paris to the sounds of jazz and brilliant talk. Horacio Oliveira is an Argentinian writer who lives in Paris with his mistress, La Maga, surrounded by a loose-knit circle of Bohemian friends who call themselves "the Club." A child's death and La Maga's disappearance put an end to his life of empty pleasures and intellectual acrobatics, and prompt Oliveira to return to Buenos Aires, where he works by turns as a salesman, a keeper of a circus cat who can truly count, and an attendant in an insane asylum. Hopscotch, written in 1963, was the first hypertext novel. Anticipating the age of the web with a non-structure that allows readers to take the chapters in any order they wish, Hopscotch invites them to be the architects of the novel themselves. Soon after publication, the classic work took on a cult status it has never lost, and is celebrated worldwide as one of the greatest landmarks of 20th-Century fiction.

Dorfman portrays, through visceral scenes and powerful intellect, the personal and political maelstroms underlying his migrations from Buenos Aires, on the run from Pinochet's death squads, to safe houses in Paris and Amsterdam, and eventually to America, his childhood home. The toll on Dorfman's wife and two sons, the 'earthquake of language' that is bilingualism, and his eventual questioning of his allegiance to past and party - all these crucibles of a life in exile are revealed with wry and startling honesty. Feeding on Dreams is a passionate reminder that 'we are all exiles', that we are all 'threatened with annihilation if we do not find and celebrate the refuge of common humanity', as Dorfman did during his 'decades of loss and resurrection'.

One of Julio Cortazar's great early novels. "Anyone who doesn't read Cortazar is doomed." Pablo Neruda"

A centenary omnibus of signature works by one of the founders of the Latin American Boom includes Hopscotch, in which the adventures of an Argentinean writer living in Paris are told through dozens of short chapters designed by the author for reading out of order.
