In an innovative mix of history, anthropology, and post-colonial theory, Vicente L. Rafael examines the role of language in the religious conversion of the Tagalogs to Catholicism and their subsequent colonization during the early period (1580–1705) of Spanish rule in the Philippines. By tracing this history of communication between Spaniards and Tagalogs, Rafael maps the conditions that made possible both the emergence of a colonial regime and resistance to it. Originally published in 1988, this new paperback edition contains an updated preface that places the book in theoretical relation to other recent works in cultural studies and comparative colonialism.

The debate over sexual violence on campus is reaching fever pitch, from headlines about out-of-control fraternities, to the "mattress protests" by female students at Columbia University and other colleges. The Hunting Ground, the new documentary by award-winning filmmakers Kirby Dick and Amy Ziering, has taken this debate to a new level, becoming a galvanizing catalyst for discussion at the hundreds of campuses where the documentary is being screened each month. The film has sparked calls for legislation by Governor Andrew M. Cuomo of New York and other prominent public figures and sparked a backlash from university administrators, fraternities, and conservative groups. Now, in a new companion volume to the film, all those concerned about the "rape culture" on campus will be offered an inside perspective on the controversy, as well as reactions to the film from a range of leading writers and guidance on how to learn more and get active. As in the film, it's the gripping personal stories told by female students—and the obstinate refusal of college administrators and law enforcement authorities to recognize the severity of the problem—that will rivet readers.
