Both the authors are highly experienced IB Economics teachers and examiners who have worked in four continents.

The 2013 IB HL Economics syllabus change introduced Paper 3, an essentially calculations-based assessment. This development challenged teachers and students alike, as few Paper 3 practice resources have been available. This is furthermore an area of the syllabus where, as in Mathematics, practice is fundamentally important in developing the skills and confidence for needed for success. Paul Hoang's latest publication therefore represents an invaluable resource in helping students to prepare for the examination challenges they face. For many candidates the mix of words, theory and numbers in Paper 3 questions can be overwhelming, if they have not developed easy familiarity throughout their course. With clear layout and content that beautifully mirrors IB examination questions, this resource is the one we have all been waiting for. I absolutely recommend it as a 'must have' for all those who are preparing for the HL Economics examination. IT is a core resource invaluable to students and teachers alike. Janet Barrow, IB Economics Teacher, OSC Teacher, IB Examiner, author of IB Business Management and TOK teacher resources 20160615

This is the 36th edition of this publication which gives an overview of key development indicators relating to social, economic and environmental data for 208 countries in the form of informative colour maps, charts and tables. Drawing on data from the "World Development Indicators 2004" publication (ISBN 0821357298), it considers a range of topics including: low-income countries and inequalities in world output and income distribution; population growth and changing demographics; the environmental impacts of urbanisation; access to basic education; maternal health; communicable diseases; gender and development; food security; access to safe drinking water and sanitation; forests and biodiversity; energy use; economic growth, trade and investment; debt management; globalisation and service industries; good governance; and development aid.
