Carbohydrates give the body energy. They are in many foods people eat each day. But some carbohydrates are healthier than others. Your Body on Carbohydrates uncovers the nutritional benefits of carbohydrates, how they interact with the body, and how to include them as part of a balanced diet. Easy-to-read text, vivid images, and helpful back matter give readers a clear look at this subject. Features include a table of contents, infographics, a glossary, additional resources, and an index. Aligned to Common Core Standards and correlated to state standards. Core Library is an imprint of Abdo Publishing, a division of ABDO.

Senator Rand Paul, leading national politician and 2016 Presidential candidate, presents his vision for America. From his electrifying thirteen-hour filibuster against administration-orchestrated drone strikes against U.S. citizens, to leading the discourse on criminal justice, Senator Rand Paul has taken Washington by storm. His outreach to this country's minority communities alone- championing reforms of mandatory minimum sentencing, school choice, and the creation of enterprise zones for economically depressed areas- distinguishes him as a politician and Republican the likes of which are rarely seen. What lies ahead is Senator Paul's plan for America, where lower taxes and smaller government empower a muscular and expansive middle class; an America that doesn't engage in nation-building or fight wars where the best outcome is stalemate; an America that believes in constitutionally protected liberty and the separation of powers.

For the aficionado of farm equipment, or the scion of an old farming family nostalgic for the old days, or the grown-up boy who still loves a classic piece of old-time machinery, the vintage tractor can be a thrilling find like no other. This book tells dozens of stories of such discoveries, of the treasured old tractor parked in a shed since 1927, of the pristine model unearthed at an estate sale, of the broken-down old beauty stashed in a barn where generations of children have made their secret hideaways. These are the classic tractors that are often as hard to find as a needle in a haystack—but far more fun to discover, as all of these delightful stories make abundantly clear.

This title examines the history of the Washington Redskins, telling the story of the franchise and its top players, greatest games, and most thrilling moments. This book includes informative sidebars, high-energy photos, a timeline, a team file, and a glossary. SportsZone is an imprint of Abdo Publishing Company.

Gluten is found in wheat and some other grains. It's in foods people eat every day. Many people can eat it without problems. Others have a disease that makes gluten damage their bodies. Fuctional Neurology for Practitioners of Manual Medicine takes the reader from the embryonic beginnings of the nervous system, through the biochemistry of receptor activation and on to the functional systems of the nervous system. Concepts, relationships and scientific mechanisms of the nervous system function are covered, and this aids the practitioner in developing their clinical approach to a wide variety of patient presentations. The text is fully referenced, which allows the reader to immediately apply the concepts to practice situations. New for this edition are new chapters on pain (including headache) and theoretical evidence, plus extensive electronic resources supporting the text. Utilizes our understanding of how the nervous system works in the treatment of a variety of clinical conditions Demystifies the clinical results seen in the practice of Functional Neurology and scientifically validates its clinical success Addresses function rather than pathology, allowing the reader to gain a firm understanding of the neurological processes seen in health and disease Contains clinical cases which are designed to be read and answered before starting the chapter to allow the reader to gauge their current state of knowledge 'Quick Facts' introduce new concepts or allow rapid review of information already presented in the text in a brief and succinct manner Contains a detailed overview of the concepts relating to our understanding of the development of emotion to demonstrate the link between physical health and the mind Contains abundant references to support controversial concepts Contains new chapters on theoretical evidence and the management of pain (including headache) Contains a wide range of additional case studies, 'clinical conundrums' and key questions and answers for each topic Bonus DVD contains fully searchable text, a downloadable image bank, brain dissection and video clips of the manipulative techniques and examination procedures found within the volume plus 200 multiple choice questions

Uma mudança nos modos de fazer arquitetura! É assim que Angelo Bucci, o mais destacado arquiteto brasileiro de uma geração que antecede aquela dos arquitetosassociados apresenta o livro. Seu olhar perspicaz desnuda a complexa trama da prática e da investigação teórica desde grupo cuja obra se desenvolve há mais de duas décadas e assinala um modo de pensar a arquitetura bastante singular no cenário da produção brasileira contemporânea. O livro se destaca ainda na própria forma de publicação, que evita o formato de portfólio comum em livros de arquiteturas: composta por duas partes, começa por um caderno de projetos que apresenta a obra coletiva do grupo; e se desdobra - literalmente- em um livro de ensaios que amplia o interesse da publicação para além do público iniciado nas discussões de arquitetura, iluminando aspectos operativos e conceituais à prática. Sem falar no acabamento primoroso com a costura aparente, miolo em pólen e capas em papel panamá. As obras selecionadas que integram o caderno de projetos são o Centro Educativo Burle Max, a Galeria Miguel do Rio Branco, a Galeria Cosmococa e a Galeria Claudia Andujar, todas em Inhotim, que sintetizam uma intensa pesquisa desenvolvida ao longo de anos na elaboração de projetos para a cultura; o edifício residencial Estúdios Capelinha, que apresenta um inserção não convencional na produção habitacional de mercado; e o redesenho urbano do entorno da Praça da Liberdade, que apresenta a visão dos arquitetos sobre a produção do espaço para a vida nas cidades como um suporte que ampara e estimula a experiência cotidiana, democrática e criativa dos espaços públicos na metrópole contemporânea. Responsáveis pela concepção de importantes edifícios da arquitetura brasileira recente, Alexandre Brasil, André Luiz Prado, Bruno Santa Cecilia, Carlos Alberto Maciel Paula Zasnicoff Cardoso mantêm em Belo Horizonte o escritório arquitetosassociados, que funciona como uma plataforma colaborativa dedicada a pensar a cidade e sua arquitetura. Seus trabalhos têm sido reconhecidos no Brasil e no exterior. A mais recente distinção é a escolha da Galeria Claudia Andujar para integrar o acervo Coleção Arquitetos Brasileira da Casa de Arquitetura, na cidade de Matozinhos, em Portugal, que apresentará em 2018 uma exposição com um panorama das 70 mais importantes obras de arquitetura brasileira, sendo 20 delas integrantes do período moderno e 50 projetos que fazem parte do período contemporâneo.

From the USA Today Bestselling author of The Sword of the Templars and The Aztec Heresy Some secrets are too great to bear... Retired Army Ranger Lt. Col. John Holliday has reluctantly settled into his teaching position at West Point when young Israeli archaeologist Rafi Wanounou comes to him with desperate news. Holliday's niece—and Rafi's fiancé—Peggy has been kidnapped. Holliday sets out with Rafi to find the only family he has left. But their search for Peggy will lead them to a trail of clues that spans across the globe, and into the heart of a conspiracy involving an ancient Egyptian legend and the darkest secrets of the Order of Templar Knights. Secrets that, once known, cannot be survived...
