The remarkable story of a small, makeshift library in the town of Daraya, and the people who found hope and humanity in its books during a four-year siege. Daraya lies on the fringe of Damascus, just southwest of the Syrian capital. Yet for four years it lived in another world. Besieged by government forces early in the Syrian Civil War, its people were deprived of food, bombarded by heavy artillery, and under the constant fire of snipers. But deep beneath this scene of frightening devastation lay a hidden library. While the streets above echoed with shelling and rifle fire, the secret world below was a haven of books. Long rows of well-thumbed volumes lined almost every wall: bloated editions with grand leather covers, pocket-sized guides to Syrian poetry, and no-nonsense reference books, all arranged in well-ordered lines. But this precious horde was not bought from publishers or loaned by other libraries--they were the books salvaged and scavenged at great personal risk from the doomed city above. The story of this extraordinary place and the people who found purpose and refuge in it is one of hope, human resilience, and above all, the timeless, universal love of literature and the compassion and wisdom it fosters.

Little Tuft, a Twoleg, can't ignore the warning and enlists the help of the last remaining Snow Dragon in a thrilling and magical quest to save the world from burning up... An entrancing story, lyrically told and gorgeously illustrated, which will be appreciated on a variety of levels by children from pre-school to 8-year-olds and older.

Was it fun to do a space walk? How squashed were you in the capsule on the way back? What were your feelings as you looked down on Earth for the first time? Were you ever scared? Where to next -- the Moon, Mars, or beyond? Based on his historic mission to the International Space Station, Ask an Astronaut is Tim Peake's guide to life in space, and his answers to the thousands of questions he has been asked since his return to Earth. With explanations ranging from the mundane -- how do you wash your clothes or go to the bathroom while in orbit? -- to the profound -- what's the point? -- all written in Tim's characteristically warm style, Tim shares his thoughts on every aspect of space exploration. From training for the mission to launch, to his historic spacewalk, to re-entry, he reveals for readers of all ages the cutting-edge science behind his groundbreaking experiments, and the wonders of daily life on board the International Space Station. The public was invited to submit questions using the hashtag #askanastronaut, and a selection are answered by Tim in the book, accompanied with illustrations, diagrams, and never-before-seen photos.
