Human-in-the-Loop Machine Learning  
Per Generare Conoscenza 1

lays out methods for humans and machines to work together effectively.

Summary Most machine learning systems that are deployed in the world today learn from human feedback.

However, most machine learning

Download File PDF

Machine Learning Con

courses focus almost exclusively on the algorithms, not the human-computer interaction part of the systems. This can leave a big knowledge gap for data scientists working in real-world machine learning, where data scientists spend more time on data management than

Download File PDF

Machine Learning Con

on building algorithms. Human-in-the-Loop Machine Learning is a practical guide to optimizing the entire machine learning process, including techniques for annotation, active learning, transfer learning, and using machine learning to optimize every step of the process. Purchase of the print book includes a
