Exponentiation is a mathematical operation, written as b^n , involving two numbers, the base b and the exponent or power n , and pronounced as "b raised to the power of n ". When n is a positive integer, exponentiation corresponds to repeated multiplication of the base: that is, b^n is the product of multiplying n bases: $= \times ? \times ?$. The exponent is usually shown as a superscript to the ...

lessons, challenges, and games keep your child motivated to continue to learn and progress! These ready-to-use worksheets help ALL young learners improve and strengthen their MATH skills! Your child will LOVE them!!

All the Math Your 7th Grader Needs to Succeed This book will help your elementary school student develop the math skills needed to succeed in the classroom and on standardized tests. The user-friendly, full-color pages are filled to the brim with engaging activities for maximum educational value. The book includes easy-to-follow instructions, helpful examples, and tons of practice problems to help students master each concept, sharpen their problem-solving skills, and build confidence. Features include:

- A guide that outlines national standards for Grade 7
- Concise lessons combined with lot of practice that promote better scores—in class and on achievement tests
- A pretest to help identify areas where students need more work
- End-of-chapter tests to measure students' progress
- A helpful glossary of key terms used in the book
- More than 1,000 math problems with answers

Topics covered:

- Mathematical operations and number properties
- Negative numbers and absolute value
- Solving problems with rational numbers
- Ratios and proportions
- Percent and percent change
- Graphing relationships and unit rates
- Roots and exponents
- Scientific notation
- Solving equations and inequalities
- Customary and metric units of measure, including conversions
- Data presentation
- Statistics and probability
- Constructing and analyzing geometric figures
- Solving problems involving angle measure, area, surface area, and volume

Give students the learning power to move to the head of the class! This book features ten packets of reproducible activities that support state and NCTM standards, and cover the six essential strands of mathematics. Simply complete each packet's customizable cover sheet, reproduce the activity pages, and send them home with your students. The packets focus on numbers and counting, measurement, time and money, patterns and relations, algebra, shapes, data analysis and probability, and problem solving. It also includes a math vocabulary list, scoring rubric, calendar template, and tools to help build the home-school connection. Answer keys are also provided.
