medical law alongside the key ethical debates and dilemmas that exist in the field. Carefully constructed features highlight these debates, drawing out the European angles, religious beliefs, and feminist perspectives which influence legal regulations. Other features such as 'a shock to the system', 'public opinion' and 'reality check' introduce further socio-legal discussion and contribute to the lively and engaging manner in which the subject is approached. Online resources This book is accompanied by the following online resources: - Complete bibliography and list of further reading - Links to the key cases mentioned in the book - A video from the author which introduces the book and sets the scene for your studies - Links to key sites with information on medical law and ethics - Answer guidance to one question per chapter

This work focuses upon decisions to withhold or withdraw life-supporting treatment from incompetent patients. It offers a critical examination of the latest developments with a view to developing a new framework for resolving disputes in the clinic that is not only theoretically robust but also practically relevant.

records and laws, professional ethics and behaviors, and the delicate issues you'll face alongside patient births and deaths. Learning features throughout help you understand complex legal terms and offer ample opportunities to practice applying concepts, while grounding you in key laws with cases, news stories, and anecdotes. More than a text, this practical resource demonstrates your legal and ethical responsibilities on the job, as well as how to protect yourself, your employer, and your patients from malpractice and a variety of legal issues. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Understanding the legal and ethical rights of any patient in their care is essential to good clinical practice. *Patients' Rights, Law and Ethics for Nurses: A Practical Guide* is a comprehensive pocket-size book for nurses, midwives and allied health professionals that integrates health care law and ethics in relation to patient rights and in the context of every day nursing and allied health practice. Accessible yet challenging, the book examines confidentiality, informed consent, cases of abuse, the rights of the disabled, and end of life decisions. Pertinent quotes enliven the text throughout, while thinking points encourage reflection. Each chapter provides easy-to-follow guidance to this complex area. A companion website provides regular updates in an areas where legislation is constantly changing. Focusing on principles of law and including clear outlines of the essential legal precedent, the author lays a solid foundation that will serve readers requiring an
