Annotation "With the acceptance of computers in our everyday life, a new line of crime has emerged revolving around the computer. Just as computers make daily transactions more efficient, they have also made many crimes more efficient. This trend is likely to continue, and for that reason alone police investigators should make themselves better prepared for computer related crime investigations. Divided into four sections, this book proposes theoretical and practical information, interventions, directives, and ideas. This text will be a useful resource for law enforcement professionals, criminal justice students, security professionals, and private business."-BOOK JACKET.Title Summary field provided by Blackwell North America, Inc.
