organizations of the legacy press are operating in a fragmenting and expanding mediaverse that resembles a big bang of proliferating online competitors that are challenging the very definition of news itself.

Studystore | News: The Politics of Illusion, Bennett, W ... Updated in a new 9th Edition, News: The Politics of Illusion, by W. Lance Bennett discusses and analyzes the dramatic shifts in news consumption and creation that have both ended and begun new eras of journalism in our time. How well does the news, as the core of the national political information system, serve the needs of democracy?

9780205082414: News: The Politics of Illusion (9th Edition ... Lance Bennett's News: The Politics of Illusion is a now-classic study, used as textbook in many political science departments, on how the interplay among American politics, journalists, and the public influences objectivity in news reporting and ultimately the democratic governance in the United States. When first published in 1983, this political communication study was a milestone work, as Doris A. Graber from the University of Illinois at Chicago writes in the book's foreword.

Can real news survive in an era of social media and spin? An updated edition of the “smart, provocative introduction to media and American politics.”—Paul Freedman, author of Campaign Advertising and American Democracy For over thirty years, News: The Politics of Illusion has not simply reflected the political communication field—it has played a major role in shaping it. Today, the familiar news organizations of the legacy press are operating in a

fragmenting and expanding mediaverse as online competitors challenge the very definition of news itself. We're inundated with opinions, gossip, clickbait, false equivalencies, targeting, and other challenges—while at the same time, the rise of serious investigative organizations such as ProPublica presents yet a different challenge to legacy journalism. Lance Bennett's thoroughly revised tenth edition offers an up-to-date guide to understanding how and why the media and news landscapes are being transformed. It explains the mix of old and new, and points to possible outcomes. Where areas of change are clearly established, key concepts from earlier editions have been revised. There are new case studies, updates on old favorites, and insightful analyses of how novel kinds of information and engagement are affecting our politics. As always, *News* presents fresh evidence and arguments that invite new ways of thinking about the political information system and its place in democracy. "Bennett argues that the American political information system—with news at its center—is broken, with serious consequences for democracy. Bennett lays out his case and invites readers to make up their own minds."—Paul Freedman, University of Virginia

Free and attentive news media are essential to the workings of a democratic nation. But how well does the news, in reality, actually serve the needs of citizens, and thereby democracy? How well do the major methods of sharing national political information work, and how well-informed do they leave voters? For years, *News: The Politics of Illusion* has been the leading textbook to address that question, and in this ninth edition W. Lance Bennett brings his analysis fully up to date, exploring recent developments in news media and showing

"Those who feel that like lemmings they are being led over a cliff would be well-advised not to read this book. They may discover that they are right."—Noam Chomsky "Jeffrey St. Clair and Joshua Frank have skillfully smoked out the real Barack Obama . . . the technofascist military strategist disguised as a Nobel Peace Laureate, but owned, operated, and controlled by Wall Street, Corporate America, and the Pentagon."—Thomas H. Naylor, co-author of Affluenza, Downsizing the USA "The writers assembled here hit hard, with accuracy, and do not pull punches."—Marcus Rediker, author of The Slave Ship: A Human History The Barack Obama revolution was over before it started, guttered by the politician's overweening desire to prove himself to the

grandees of the establishment. From there on, other promises proved ever easier to break. Here's the book that dares not let Obama off the hook. It's all here: the compromises, the backstabbing, the same old imperial ambitions. Covering all major "Obummer" categories since he took office, this fast-paced collection will delight the critical and offer food for thought for those contemplating the 2012 electoral circus—and beyond. Jeffrey St. Clair is co-editor of CounterPunch, author of *Born Under a Bad Sky* and *Been Brown So Long it Looked Green to Me*, and co-author of *Whiteout: The CIA, Drugs, and the Press*. Joshua Frank is an environmental journalist and co-editor of *Red State Rebels: Tales of Grassroots Resistance in the Heartland*. His investigative reports and columns appear in CounterPunch, Chicago Sun-Times, Common Dreams, and AlterNet.

An incisive argument for fostering stronger links between the interests of society and progress in science.

By offering a radical review of the last one hundred years of US history, this work is intended as a counterpoint to the rampant revisionism of the flurry of books glorifying the "American Century". Beginning with the rather bold and decidedly controversial assertion that the current political system in place in the United States at the dawn of the twenty-first century is fascism, the first part of this book attempts to justify that claim by first defining exactly what fascism is—correcting various widely-held misconceptions—and then analyzing how closely we as a nation conform to that definition. Also included is a review of some of the hidden history and key events of World War II. Part II offers a retrospective of the twentieth century American presidential

# Access Free News The Politics Of Illusion 9th Edition

administrations, to demonstrate that the steady and inexorable march towards overt fascism was a defining characteristic that remained unchanged. The final section looks at the still very much alive eugenics movement, and analyzes the role played by the psychiatric establishment in validating the fascist state. This book will surely find no shortage of detractors, but if read with an open mind, it just may change the way you view the world.
