The Indian system of medicine is known for its classical literature, mainly the major triad of the Charaka Samhita, Sushruta Samhita and the Ashtanga

Download Free Padartha Vijnana

Hridayam. These classical texts were created by the seers of yore who had a profound knowledge free of any shortcomings. These ancient literary gems were based on the strong foundation of Indian

Download Free Padartha Vijnana

Philosophy, mainly the theistic ones. Out of the three major classics, the Charaka Samhita is well known for its deliberations on the speciality of medicine. The main postulates of the Charaka

Download Free Padartha Vijnana

Samhita aim at the maintenance of health of the healthy and the treatment of the diseased. The Charaka Samhita has a total of 120 chapters divided into 8 sections known as Sthana. The first and foremost is

Download Free Padartha Vijnana

the Sutra Sthana, i.e. the section dealing with the fundamentals of the Indian system of medicine known as Ayurveda. All the basic principles of the Ayurveda system related to the health are mentioned in this

Download Free Padartha Vijnana

section. These principles find their application elsewhere in the other seven sections of the text. One of the most important of all the sections of the Charaka Samhita is the Vimana Sthana, i.e. the section

Download Free Padartha Vijnana

dealing with measurement/standardization. It is hereby referred to as the Section of Examinations or the Pariksha Sthana. The Vimana Sthana has a total of 8 chapters which ponder over a wide range of subjects

Download Free Padartha Vijnana

like the special effects of drugs, epidemiology, pathology, dietetics, ways of gaining knowledge and the teaching methodology. The discussion in the Vimana Sthana centers on the different types of

Download Free Padartha Vijnana

examination of the patient,
mainly the ten-fold
examination of the natural
constitution (prakriti),
vikriti (pathology) et al.
Along with these
examinations, there is a
vivid description of the

teaching methodology in the Ayurveda system of medicine with an emphasis on the friendly discussions. The fundamentals of research like the drug research and the five-fold research protocol are also

Download Free Padartha Vijnana

conspicuous by their presence and find their widespread utility in the contemporary research arena. Thus, the Vimana Sthana provides ample knowledge to the seekers of Ayurveda knowledge and paves the way

for research and
standardization in this
ancient holistic Indian
System of medicine.

This book discusses Asian
medicine, which puts
enormous emphasis on

Download Free Padartha Vijnana

prevention and preservation of health, and examines how, in recent decades, medical schools in Asia have been increasingly shifting toward a curative approach. It offers an ethnographic investigation of the

Download Free Padartha Vijnana

scenarios in China and India and finds that modern students and graduates in these countries perceive Asian medicine to be as important as Western medicine. There is a growing tendency to integrate Asian

Download Free Padartha Vijnana

medicine with Western medical thought in the academic curriculum that has led to a gradual decline of Asian medical thought and practices. At the same time, there has been a massive rise in patent drugs, health

Download Free Padartha Vijnana

products and cosmetics being sold under the brand names of Asian medicine or herbal medicine. Most of these drugs and health products do not follow the classical formulas found in the Asian medical texts. The book

Download Free Padartha Vijnana

analyses these texts and concludes that contemporary Asian medicine rarely follows the classical texts, and in fact uses Asian medicine brands to sell Western health products and practices. With a particular

Download Free Padartha Vijnana

focus on the formal and professional sector of Chinese herbal medicine and Indian ayurvedic medicine in urban areas, this book appeals to a broad readership, including undergraduate students and

academics as well as non-experts. Md. Nazrul Islam is an Associate Professor in the General Education Office, United International College, Beijing Normal University-Hong Kong Baptist University. He was a
