Here's an example of how to use that personal essay template: Story: When I was 11, my family traveled to Italy and visited museums - one specific painting made me fall in love with art. (1-2 paragraphs) Why important: After that trip, I did lots of art and studied lots of art. Mention specific extracurriculars. (3 paragraphs)

Examining the link between global ecology and the global economy, a French journalist critiques the role of the world's wealthy elite in impeding democratic initiatives designed to alleviate the world's ecological and social crises. Original.

Personal Project Pursuit is the first book to feature Brian Little's highly respected personal projects analysis (PPA), one of the pioneering theories in contemporary personality and motivational psychology. The book examines both the internal and external dynamics of personal goals and projects and clearly demonstrates that human flourishing is enhanced when individuals are engaged in the pursuit of personal projects. The book opens with the theory and methodologies of personal projects research. The historical perspective on the development of the two dominant research perspectives from personality and developmental psychology is explored. Section II examines the internal dynamics and competing demands of goal formulation and project inception. The third part accentuates the role that social ecologies play in shaping the nature and outcomes of personal projects. These chapters highlight the importance of interpersonal relationships, organizational contexts, and the societal and cultural expectations in affecting the pursuit of personal projects. Ideas for orchestrating the environment to enhance human flourishing are explored. Section IV demonstrates how personal projects can illuminate and enhance human flourishing, from psychological well being to physical health. The book concludes with applications for enhancing human flourishing from individual counseling to public policy. Personal Project Pursuit is intended for advanced students, researchers, and practitioners in personality, social, developmental, industrial/organizational, health, environmental, clinical and counseling psychology interested in motivation and well being. An excellent supplemental text for courses on personality, motivation, positive psychology, well being, personal and life span development, the book's applied focus will appeal to counselors and rehabilitation/occupational therapists.

Provides guidelines and examples for handling research, outlining, spelling, punctuation, formatting, and documentation.

In an ideal world, everyone would always have the right information, in the right form, with the right context, right when they needed it. Unfortunately, we do not live in an ideal world. This book looks at how people in the real world currently manage to store and process the massive amounts of information that overload their senses and their systems, and discusses how tools can help bring these real information interactions closer to the ideal. Personal information management (PIM) is the study and practice of the activities people perform to acquire, organize, maintain, and retrieve information for everyday use. PIM is a growing area of interest as we all strive for better use of our limited personal resources of time, money, and energy, as well as greater workplace efficiency and productivity. Personal information is currently fragmented across electronic documents, email messages, paper documents, digital photographs, music, videos, instant messages, and so on. Each form of information is organized and used to complete different tasks and to fulfill disparate roles and responsibilities in an individual's life. Existing PIM tools are partly responsible for this fragmentation. They can also be part of the solution that brings information together again. A major contribution of this book is its integrative treatment of PIM-related research. The book grows out of a workshop on PIM sponsored by the National Science Foundation, held in Seattle, Washington, in 2006. Scholars from major universities and researchers from companies such as Microsoft Research, Google, and IBM offer approaches to conceptual problems of information management. In doing so, they provide a framework for thinking about PIM as an area for future research and innovation.

ALLEN/GETTING THINGS DONE

Cultivate a positive mindset, and choose productive actions by examining your emotions and interpretations in the classroom. By investigating three management phases--awareness, analysis, and choice--teachers can become mindful of factors that influence their interactions with students and learn a process for ensuring positive outcomes. You'll gain concrete strategies and activities that enhance classroom practice and impact student learning.

Alongside the O.J. Simpson trial, the affair between Bill Clinton and Monica Lewinsky now stands as the seminal cultural event of the 90s. Alternatively transfixed and repelled by this sexual scandal, confusion still reigns over its meanings and implications. How are we to make sense of a tale that is often wild and bizarre, yet replete with serious political and cultural implications? Our Monica, Ourselves provides a forum for thinking through the cultural, political, and public policy issues raised by the investigation, publicity, and Congressional impeachment proceedings surrounding the affair. It pulls this spectacle out of the framework provided by the conventions of the corporate news media, with its particular notions of what constitutes a newsworthy event. Drawing from a broad range of scholars, Our Monica, Ourselves considers Monica Lewinsky's Jewishness, Linda Tripp's face, the President's penis, the role of shame in public discourse, and what it's like to have sex as the president, as well as specific legal and historical issues at stake in the impeachment of Bill Clinton. Thoughtful but accessible, immediate yet far reaching, Our Monica, Ourselves will change the way we think about the Clinton affair, while helping us reimagine culture and politics writ large. Contributors include: Lauren Berlant, Eric D. Clarke, Ann Cvetkovich, Simone Weil Davis, Lisa Duggan, Jane Gallop, Marjorie Garber, Janet R. Jakobsen, James R. Kincaid, Laura Kipnis, Tomasz Kitlinski, Pawel Leszkowicz, Joe Lockard, Catharine Lumby, Toby Miller, Dana D. Nelson, Anna Marie Smith, Ellen Willis, and Eli Zaretsky.

Download and read the process during the develop of my Personal Project. Note: This book was originally made with iBooks Author so excuse the formatting in the pdf as one page is supposed to be two pages.
