A crane uses the pulley
and cable system to
create a mechanical
advantage so that large
loads can be lifted. The
two most important
criteria in crane design
are lifting capacity and

File Type PDF

Product

stability. Winders, cables, ropes, chains, and a basic level-pulley system are essential parts of any type of crane.

The subject of business ethics addresses what can be considered morally right and wrong in the way businesses make decisions and conduct

File Type PDF

Product

their activities. Business Ethics is a lively and engaging textbook covering the foundations of business ethics and applying these theories, concepts and tools to each of the corporation's major stakeholders.

Written from a European perspective, the text considers the implications of three major challenges facing

File Type PDF

Product

the corporation:
corporate citizenship,
globalization and
sustainability. This
second edition has been
thoroughly revised and
updated and includes
new content on personal
values and Asian
perspectives. It features
lots of new cases and
vignettes as well as
updates of favourites
from the first edition.

File Type PDF

Product

The high level of pedagogical features has been extended for the new edition, with new features including 'Ethics on Screen' and 'Key Readings'. The online resource centre has been developed further with new features including more teaching notes, incorporating review and discussion questions for lecturers, and additional
