Strengthening trust, accountability, and participation in government are essential to serving the needs of citizens. This volume brings together concepts and ideas from around the world on how to achieve more responsive and accountable public administration within the framework of democratic governance. Public officials and administrators are provided with conceptual and policy tools to help them understand today's complex challenges, and to pursue ideas that are most likely to enhance service delivery from the citizen's perspective. The publication is one of the analytical products emerging from the Global Forum on Reinventing Government.

After a quarter of a century of implementation of New Public Management (NPM) reform strategies, this book assesses the major real outcomes of these reforms on states and public sectors, at both the organisational level and a more political level.

After a quarter of a century of implementation of New Public Management (NPM) reform strategies, this book assesses the major real outcomes of these reforms on states and public sectors, at both the organisational level and a more political level. Unlike most previous accounts of reform, this book looks at how reform has changed the role of the public administration in democratic governance. Featuring case

recompositions of democratic states, this book will be of interest to students and scholars of all matters relating to public administration and governance within political science, management, public law, sociology, contemporary history, and cultural studies.

The true measure of the successful practice of public service is its ability to remain faithful to the tenets of democratic society. This introductory text links the practice of public administration to the core concepts of American democracy. It covers the nuts and bolts of public administration in the context of "delivering democracy" in public service -

providing what the public really wants as opposed to what self-serving bureaucracies may call for. Chapters in "Democracy and Public Administration" discuss the functional topics covered in other texts, but from the perspective of this democratic ideal. Each chapter is written by an expert in the area, and summarizes previous research in the area, presents the author's research and thought, and offers ways in which practitioners can apply the concepts discussed to their daily work.

Though his term in the White House ended nearly a century ago, Woodrow Wilson anticipated the need for new ideas to address the effects of modern economic and social forces on the United States, including increased involvement in

Read Free Public Administration And Democratic Governance

international affairs. Democracy and Administration synthesizes the former world leader's thought on government administration, laying out Wilson's concepts of how best to manage government bureaucracies and balance policy leadership with popular rule. Linking the full gamut of Wilson ' s ideas and actions covering nearly four decades, Brian J. Cook finds success, folly, and fresh thinking with relevance in the twenty-first century. Building on his interpretive synthesis, Cook links Wilson ' s tenets to current efforts to improve public management, showing how some of his most prominent ideas and initiatives presaged major developments in theory and practice. Democracy and Administration calls on scholars and practitioners to take Wilson ' s institutional design and regime-level orientation

Read Free Public Administration And Democratic Governance

into account as part of the ambitious enterprise to develop a new science of democratic governance.

The contributors to this volume contend that the North American political system is undergoing a serious governmental crisis - political leaders know only how to campaign, not how to gain consensus on goals or direct a course that is to the good of the nation. Public administration is therefore forced to compensate for the growing inadequacy of the 'leaders', and with a normative-based body of theorizing, perform its key role of governance within a democratic system of polycentric power. The book offers a revisualization of the relationship between public servants and the citizens they serve, and a continuing discourse on
