This brand new updated edition of the most comprehensive reference book on pancreatic disease details the very latest knowledge on genetics and molecular biological background in terms of anatomy, physiology, pathology, and pathophysiology for all known disorders. Included for the first time, are two brand new sections on the key areas of Autoimmune Pancreatitis and Benign Cystic Neoplasms. In addition, this edition is filled with over 500 high-quality illustrations, line drawings, and radiographs that provide a step-by-step approach to all endoscopic techniques and surgical procedures. Each of these images can be downloaded via an online image bank for use in scientific presentations. Every existing chapter in The Pancreas: An Integrated Textbook of Basic Science, Medicine and Surgery, 3rd Edition has been thoroughly revised and updated to include the many changes in clinical practice since publication of the current edition. The book includes new guidelines for non-surgical and surgical treatment, new molecular biologic pathways to support clinical decision making in targeted treatment of pancreatic cancer, new minimally invasive surgical approaches for pancreatic diseases, and the latest knowledge of neuroendocrine tumors and periampullary tumors. The most encyclopedic book on the pancreas—providing outstanding and clear guidance for the practicing clinician Covers every known pancreatic disorder in detail including its anatomy, physiology, pathology, pathophysiology, diagnosis, and management Completely updated with brand new chapters Over 500 downloadable illustrations An editor and author team of high international repute who present global best-practice The Pancreas: An Integrated Textbook of Basic Science, Medicine and Surgery, 3rd Edition is an important book for gastroenterologists and gastrointestinal surgeons worldwide.

Hi.Are you facing challenges in generating sales? Unable to reach your true potential in generating business?Unable sell your ideas to others?Consistently low sales?Well if you are facing all above challenges, then read on...I am Deepaq V Vartak, author of "How To Sell Everyday In 3 Easy Steps".I have helped thousands of sales professionals and business owners in generating sales and taking their business numbers to newer heights.Selling is an art, and I have made it simple for you to understand and implement it.The techniques that I have shared in my book, are used by Top Successful Sales Professionals. You too can learn and master it and generate mind blowing sales figures for you. The best part is that it is easy to understand and implement it right from the day one.Be rest assured, that you shall get results. Just keep using those techniques day in and day outSo what are you waiting for? Buy your copy today and start reaping the benefits that others are reapingNow with 10 unique Sales Closing Techniques, you will only get better..Buy your copy now and go on to become the best in your trade.

This two-volume set, CCIS 0269-CCIS 0270, constitutes the refereed post-conference proceedings of the International Conference on Global Trends in Computing and Communication, ObCom 2011, held in Vellore, India, in December 2011. The 173 full papers presented together with a keynote paper and invited papers were carefully reviewed and selected from 842 submissions. The conference addresses all current issues associated with computing, communication and information. The proceedings consists of invited papers dealing with the review of performance models of computer and communication systems and contributed papers that feature topics such as networking, cloud computing, fuzzy logic, mobile communication, image processing, navigation systems, biometrics and Web services covering literally all the vital areas of the computing domains.

This book contains 74 papers presented at ICTCS 2017: Third International Conference on Information and Communication Technology for Competitive Strategies. The conference was held during 16–17 December 2017, Udaipur, India and organized by Association of Computing Machinery, Udaipur Professional Chapter in association with The Institution of Engineers (India), Udaipur Local Center and Global Knowledge Research Foundation. This book contains papers mainly focused on ICT for Computation, Algorithms and Data Analytics and IT Security etc.

This 2-Volume-Set, CCIS 0269-CCIS 0270, constitutes the refereed proceedings of the International Conference on Global Trends in Computing and Communication (CCIS 0269) and the International Conference on Global Trends in Information Systems and Software Applications (CCIS 0270), ObCom 2011, held in Vellore, India, in December 2011. The 173 full papers presented together with a keynote paper and invited papers were carefully reviewed and selected from 842 submissions. The conference addresses issues associated with computing, communication and information. Its aim is to increase exponentially the participants' awareness of the current and future direction in the domains and to create a platform between researchers, leading industry developers and end users to interrelate.

This book presents the latest findings in the areas of data management and smart computing, big data management, artificial intelligence and data analytics, along with advances in network technologies. Gathering peer-reviewed research papers presented at the Fourth International Conference on Data Management, Analytics and Innovation (ICDMAI 2020), held on 17–19 January 2020 at the United Services Institute (USI), New Delhi, India, it addresses cutting-edge topics and discusses challenges and solutions for future development. Featuring original, unpublished contributions by respected experts from around the globe, the book is mainly intended for a professional audience of researchers and practitioners in academia and industry.

This book presents the refereed proceedings of the 5th International Conference on Advanced Machine Learning Technologies and Applications (AMLTA 2020), held at Manipal University Jaipur, India, on February 13 – 15, 2019, and organized in collaboration with the Scientific Research Group in Egypt (SRGE). The papers cover current research in machine learning, big data, Internet of Things, biomedical engineering, fuzzy logic and security, as well as intelligence swarms and optimization.

Biography of Madhava Rao Sindhia, Raja of Gwalior, d. 1794, chief of a Maratha confederacy.

This book constitutes the refereed proceedings of the 21st International Symposium on VLSI Design and Test, VDAT 2017, held in Roorkee, India, in June/July 2017. The 48 full papers presented together with 27 short papers were carefully reviewed and selected from 246 submissions. The papers were organized in topical sections named: digital design; analog/mixed signal; VLSI testing; devices and technology; VLSI architectures; emerging technologies and memory; system design; low power design and test; RF circuits, architecture and CAD, and design verification.
