Perfection in Simplicity Tadao Ando's complete works from 1975 until today Discover the completely unique aesthetic of Tadao Ando, the only architect ever to have won the discipline's four most prestigious prizes: the Pritzker, Carlsberg, Praemium Imperiale, and Kyoto Prize. Philippe Starck defines him as a "mystic in a country which is no longer mystic." Philip Drew calls his buildings "land art" as they "struggle to emerge from the earth." His designs have been described as haiku crafted from concrete, water, light, and space. But to Ando, true architecture is not expressed in metaphysics or beauty, but rather through space that embodies physical wisdom. This thoroughly updated 2018 edition spans the breadth of his entire career, including such stunning new projects as the Shanghai Poly Grand Theater and the Clark Center at Clark Art Institute in Williamstown, Massachusetts. Each project is profiled through photographs and architectural drawings to explore Ando's unprecedented use of concrete, wood, water, light, space, and natural forms. Super Potato Design is the first full-length book to present the work and conceptual ideas of the internationally renowned Japanese design firm Super Potato, founded by Takashi Sugimoto. Super Potato's powerful designs for the interiors of restaurants, shops and hotels, as well as Takashi Sugimoto's designs for tea ceremony spaces and utensils, are richly complex compositions of materials which create simple, strong spaces. Using traditional Japanese building materials such as bamboo, wood, and stone, but crating original yet timeless spaces, Super Potato's designs avoid specific stylistic characterizations and short-lived fashion. By finding contemporary expression for important concepts present in traditional Japan and combining materials in unexpected ways to create exciting spaces, Super Potato's work has had a significant impact on interior design in Japan and throughout Asia. Super Potato Design is generously illustrated with 320 full-color photographs by the respected Japanese photographer Yoshio Shiratori, who has recorded Super Potatos projects since the firm's conception in 1973. Architect and Japan scholar Mira Locher introduces the ideas and influences of Takashi Sugimoto, the founder and principle designer of Super Potato, and provides a thorough explanation of each project. Architectural drawings further describe the projects. A forward by Tadao Anso, interviews between Takashi Sugimoto and architect Kiyoshi Sey Takeyama, and also graphic designer Kenya Hara, explore the ideas relevant to Japanese designers today. A list of the Complete Works of Super Potato rounds off the book.

"Ando selected for inclusion the thirty-five projects that best embody his belief that the interplay with nature defines architecture and the passage of time molds architecture. All are shown in spectacular, specially commissioned color photography. Among the major recent works are the Modern Art Museum of Fort Worth in Texas; the Komyo-ji Temple in Saijo, Japan; the meditation space for UNESCO in Paris; the Pulitzer Foundation for the Arts in St. Louis; and the Armani/Teatro in Milan. Also included are some of Ando's most important and well-known earlier works, including the Church of the Water in Hokkaido, the Church of the Light in Ibaraki, and a series of houses throughout Japan."--BOOK JACKET.

Gaudí's complete works: The inspiring, visionary buildings by the "Dante of architecture" Anyone who visits Barcelona today will come across the works of Antoni Gaudí--the architect who has attracted art-lovers from all over the world to Spain. It was here, in the capital of Catalonia, that the famous master of architecture produced nearly all of his works, including villas for the well-to-do bourgeoisie, the expansive Güell Park (which today is open to the public), and the famous church designed in honour of the Holy Family--a project which was begun over 100 years ago and has yet to be completed. Antoni Gaudí's life was full of contradictions. As a young man he joined the Catalan nationalist movement and was critical of the church; toward the end of his life he devoted himself completely to the construction of one single church. As a young man Gaudí had a liking for the glamour of social life and the looks of a dandy; in old age, on the other hand, he lived a spartan life. Gaudí never married and devoted his life entirely to his art: architecture. His works have been acclaimed as "soothing oases in a desert of functional buildings," as "precious gems in the uniform grey of

rows of houses," and the master himself was acclaimed as the "Dante of architecture". This book provides a sweeping study of his entire career, presenting his complete works via texts and illustrations.
