The face of autism is changing. And more often than we realize, that face is wearing lipstick. Autism in Heels, an intimate memoir, reveals the woman inside one of autism's most prominent figures, Jennifer O'Toole. At the age of thirty-five, Jennifer was diagnosed with Asperger's syndrome, and for the first time in her life, things made sense. Now, Jennifer exposes the constant struggle between carefully crafted persona and authentic existence, editing the autism script with wit, candor, passion, and power. Her journey is one of reverse-self-discovery not only as an Aspie but--more importantly--as a thoroughly modern woman. Beyond being a memoir, Autism in Heels is a love letter to all women. It's a conversation starter. A game changer. And a firsthand account of what it is to walk in Jennifer's shoes (especially those iconic red stilettos). Whether it's bad perms or body image, sexuality or self-esteem, Jennifer's is as much a human journey as one on the spectrum. Because autism "looks a bit different in pink," most girls and women who fit the profile are not identified, facing years of avoidable anxiety, eating disorders, volatile relationships, self-harm, and stunted independence. Jennifer has been there, too. Autism in Heels takes that message to the mainstream. From her own struggles and self-discovery, she has built an empire of empowerment, inspiring women the world over to realize they aren't mistakes. They are misunderstood miracles.

For people on the autism spectrum dating is so often an elusive art form, requiring the very skills--in communication, and in social perception--that don't come naturally to them. This book presents strategies for overcoming social skills deficits and sensory issues, to make for relationship success. Emilia Murry Ramey and Jody John Ramey, both on the spectrum, reflect on their dating experiences and provide recommendations for relationships in both the short- and long-term. Their advice includes how to choose venues for meeting people that are free from discomfiting features; coping with typical experiences in the light of sensory issues such as close proximity with a partner, eye-contact, and physical intimacy; and moving on to extended, committed relationships, co-habiting and continuing to date after marriage. Thorough, accessible, and very encouraging, this book is a must-read for Autistic people, those who love them, and those who are in love with them.

Gathering the artistic talents of children with Asperger syndrome and artists from around the world, as well as her own artwork, Jennifer O'Toole has created a one-of-a-kind coloring book. Full of Aspie special interests - mythology, science, math, and more - this cool coloring book is educational, fun, and above all a celebration of difference!

Spectrum gals, ever wished you had a handbook to help navigate the confusing world of teenage girlhood? Look no further! Aspie-in-the-know, Jennifer Cook O'Toole provides just that with her inspirational guide to life for teenage girls with Asperger syndrome. Drawing on her own, real-life experiences rather than preaching from textbooks, she covers everything you need (and want!) to know, from body shapes and love interests to bullying, friendships and how to discover and celebrate your unique, beautiful self. With illustrations by an Aspie teen and inspirational quotes from well-known, female Aspie voices, including Temple Grandin, Rudy Simone, Robyn Steward, and Haley Moss, Sisterhood of the Spectrum is your perfect companion on the "yellow brick road" to womanhood. It will leave you empowered, informed and excited to be different.

Sex. Slang. Slumber parties. The preoccupations of adolescents with Asperger syndrome are no different than those of other teens, but they can be much more confusing. The lack of social skills and ability to grasp conversational nuances that characterize AS make adolescence the most difficult life stage. Asperger Syndrome is characterized by a reliance on clear guidelines, and in adolescence the social guidelines become murky and confusing. In Asperger Syndrome and Adolescence, child psychologist Teresa Bolick presents strategies for helping the ten-to-eighteen-year-old achieve happiness and success by maximizing the benefits of AS and minimizing the drawbacks.

Offers guidance to young people with Asperger's syndrome by explaining how to understand and communicate with their peers and teachers, standing up for and taking care of themselves, setting realistic goals, and making friends.
