California spends \$400,000,000 annually to incarcerate children as young as twelve years old. Every year, the price of a four year education at Stanford University buys each of these children horrifying physical, sexual, and psychological abuse behind the walls and fences of the California Youth Authority. At the age of nine, a family tragedy split up Dwight Abbott's family, and forced him into the hands of the California Youth Authority. This is the chilling chronicle of his

It has been called the most dangerous gang in American history. In Los Angeles alone it is responsible for over 100 homicides per year. Although it has fewer than 300 members, it controls a 40,000-strong street army that is eager to advance its agenda. It waves the flag of the Black Hand and

its business is murder. Although known on the streets for over fifty years, the Mexican Mafia has flown under the radar of public awareness and has flourished beneath a deep cover of secrecy. Members are forbidden even to acknowledge its existence. For the first time in its history, the Mexican Mafia is now getting the attention it has been striving to avoid. In this briskly written and thoroughly researched book, Tony Rafael looks at the birth and the blood-soaked growth of this criminal enterprise through the eyes of the victims, the dropouts, the cops and DAs on the front lines of the war against the Mexican Mafia. The first book ever published on the subject, *Southern Soldiers* is a pioneering work that unveils the operations of this California prison gang and describes how it grew from a small clique of inmates into a transnational

criminal organization. As the first prison gang ever to project its power beyond prison walls, the Mexican Mafia controls virtually every Hispanic neighborhood in Southern California and is rapidly expanding its influence into the entire Southwest, across the East Coast, and even into Canada. Riding a wave of unchecked immigration and seemingly beyond the reach of law enforcement, the Mexican Mafia is poised to become the Cosa Nostra of twenty-first-century America.

During the 1930s in the United States, the Works Progress Administration developed the Federal Writers' Project to

support writers and artists while making a national effort to document the country's shared history and culture. The American Guide series consists of individual guides to each of the states. Little-known authors—many of whom would later become celebrated literary figures—were commissioned to write these important books. John Steinbeck, Saul Bellow, Zora Neale Hurston, and Ralph Ellison are among the more than 6,000 writers, editors, historians, and researchers who documented this celebration of local histories. Photographs, drawings, driving tours, detailed descriptions of towns, and rich cultural details exhibit each state's unique flavor. The guide to California stands out among the rest of the WPA guides for the quality of its writing, photographs, and pen-and-ink drawings. The Golden State contains much diversity of

people, places, and things, and the WPA Guide expertly reflects and records the eclectic quality of this quintessentially American state. Published in 1939, the guide's essays on history cover everything from the gold rush to the movie industry at the nascence of Hollywood's golden age, and its back-road tours through California's coastal fishing villages and mountain mining towns still provide a splendid alternative to freeways.

Learn how to provide exemplary service to incarcerated individuals in prisons, jails, and youth detention centers.
