There are two sides to every story. It's friends-at-first-sight for Jessie and Annie, proving the old adage that opposites attract. Shy, anxious Jessie would give anything to have Annie's beauty and confidence. And Annie thinks Jessie has the perfect life, with her close-knit family and killer grades. They're BFFs . . . until suddenly they're not. Told through alternating points of view, How It Ends is the story of a friendship from first meeting to breakup, set against a tumultuous sophomore year of bullying, boys, and backstabbing. Catherine Lo makes her debut with an honest, nuanced tale about the intricacies of female friendship.

If you could see the future, would you want to? After the disturbing visions Riley and his friends see turn out to be more than hallucinations, fate takes a dangerous twist in this dark and suspenseful page-turner. Riley and his friends are gearing up for their senior year by spending one last night hanging out in the woods, drinking a few beers, and playing Truth or Dare. But what starts out as a good time turns sinister when they find a mysterious pair of binoculars. Those who dare to look through them see strange visions, which they brush off as hallucinations. Why else would Riley see himself in bed with his best friend's girlfriend—a girl he's had a secret crush on for years? In the weeks that follow, the visions begin to come true...including a gruesome murder. One of Riley's closest friends is now the prime suspect. But who is the murderer? Have Riley and his friends really seen the future through those mysterious binoculars? And what if they are powerless to change the course of events?

A BOOK OF HEALING AND HOPE BY NEW ZEALAND TV JOURNALIST JEHAN CASINADER As an award-winning TV journalist, Jehan Casinader told other people's stories - until he lost control of his own. Severely depressed, he tried everything - from mindfulness to massage; Prozac to Pilates. Was something missing? This Is Not How It Ends chronicles Jehan's four-year battle with depression, and how the power of storytelling helped him to survive. He argues that many of us think our brains are broken, but in fact, our stories are broken. Jehan began an experiment on himself. Could he rewrite his past? Could he reinvent his character? Could he create a whole new plot? This gritty, vulnerable book will challenge readers' understanding of mental distress, and give them the tools to reshape their own life stories.

During an earthquake in the year 2012 five teens are transported seventy-five years into the future, where the end of the world is imminent, and are drawn together by a mysterious force.

Seventeen-year-old Hanna has been in love with Seth for as long as she can remember, but now that her feelings are requited and she and Seth are in an actual relationship, it feels like love just isn't enough. Seth is controlling and all they seem to do anymore is hurt each other. If that's what love is, Hanna doesn't want any part of it. Besides, she has something else on her mind: graduation. But she's been ignoring the school's community service requirement for years, and now she needs to clock in some hours in a hurry. She volunteers as a caretaker for the Schoenmakers, an elderly couple who live on a farm behind Hanna's house. Mrs. Schoenmaker has advanced Parkinson's, and her husband can't always be there to watch over her. While caring for Mrs. Schoenmaker, Hanna gets drawn into an audiobook that the older woman is listening to, a love story of passion and sacrifice and shared hurts and complete devotion. She's fascinated by the idea that love like that can truly exist, and without her even realizing it, the story begins to change her. But what Hanna doesn't know is that the story she's listening to is not fiction -- and that Mrs. Schoenmaker and her husband's devotion to each other is about to reach its shattering, irrevocable conclusion...

In this "brave and heartbreaking novel that digs its claws into you and doesn't let go, long after you've finished it" (Anna Todd, New York Times bestselling author) from the #1 New York Times bestselling author of All Your Perfects, a workaholic with a too-good-to-be-true romance can't stop thinking about her first love. Lily hasn't always had it easy, but that's never stopped her from working hard for the life she wants. She's come a long way from the small town where she grew up—she graduated from college, moved to Boston, and started her own business. And when she feels a spark with a gorgeous neurosurgeon named Ryle Kincaid, everything in Lily's life seems too good to be true. Ryle is assertive, stubborn, maybe even a little arrogant. He's also sensitive, brilliant, and has a total soft spot for Lily. And the way he looks in scrubs certainly doesn't hurt. Lily can't get him out of her head. But Ryle's complete aversion to relationships is disturbing. Even as Lily finds herself becoming the exception to his "no dating" rule, she can't help but wonder what made him that way in the first place. As questions about her new relationship overwhelm her, so do thoughts of Atlas Corrigan—her first love and a link to the past she left behind. He was her kindred spirit, her protector. When Atlas suddenly reappears, everything Lily has built with Ryle is threatened. An honest, evocative, and tender novel, It Ends with Us is "a glorious and touching read, a forever keeper. The kind of book that gets handed down" (USA TODAY).

"Remarkably upbeat, and imbued with wit, wisdom and a palpable sense of awe over our universe."—Tucson Weekly Most of us are aware of our own mortality, but few among us know what science, with insights yielded from groundbreaking new research, has to say about endings on a larger scale. Enter astronomer Chris Impey, who chronicles the death of the whole shebang: individual, species, bio- sphere, Earth, Sun, Milky Way, and, finally, the entire universe. With a healthy dose of humor, How It Ends illuminates everything from the technologies of human life extension and the evolutionary arms race between microbes and men to the inescapable dimming of the Sun and the ultimate "big rip," giving us a rare glimpse into a universe without us.
