This book is centred around an innovative idea. It follows the development of the imaginary British town of Timechester from prehistory to the modern age, taking as its inspiration the wide variety of British towns which have hosted Time Team digs. As you turn the pages you will see the town grown and change, yet still with some elements remaining. The Team provide a commentary on the gradual development of the town in their familiar style, along with illustrations by the series' resident artist. Victor Ambrus.

Most of us can name at least a few of the major events, places and people in British history. But the details are often more confusing. Did the Saxons come before or after the Romans? Did King Arthur really exist? When did Charles I lose his head or Wellington defeat Napoleon at Waterloo? In "The Ultimate Time Team Companion" Tim Taylor draws on the expertise of the Time Team contributors to answer all your questions about the programme, including a guide to all 50 excavation sites illustrating our British history from the dawn of time to the modern age. It also follows the team in five photo stories as they explore Cirencester, northern France, Basing House, Flag Fen and Elveden in Suffolk.

Time Team is Channel 4's perennially popular archaeology show - and the experts are ready to share their archaeological know-how with us. So many of us watch the show and wish that we, too, could get out there, get digging and uncover an artefact such as a piece of pottery, glass, brooch or pipe stem. Now we can! The Time Team Dig Book explains all the key skills the budding archaeologist needs to know. From gaining permission for your dig and surveying the landscape, to locating and excavating your first trench; from identifying pottery, to your final report and the legacy of your dig. Taking us on a tour of some of their latest key excavation sites, Tony, Mick, Phil and the gang share with us their wealth of expertise and tell us all we need to know in order to join in.

Bringing history to life in full-colour

Recent surveys have shown that, as a nation, our knowledge of British history is sketchy at best. A 2001 poll found that 30% of 11-18 year olds thought

## Read Free Time Teams Timechester Hb A Companion To Archaeology

that Oliver Cromwell fought at the Battle of Hastings and a similar number had no idea in which century the First World War occurred. And the rest of us are no better. Many of us remember important dates and events only if there is a handy rhyme - 'In 1492 Columbus sailed the ocean blue' - or a charming folk story to accompany them. As a result Henry VIII is remembered for his wives rather than the Reformation and Charles I, who was publicly executed during the Civil War, is famous for climbing a tree! Here, in *What Happened When*, Tim Taylor and the expert archaeologists and historians behind the hit Channel 4 series *Time Team* will set us straight. Each member of the team will select the events they believe had a major impact on our society and set out to justify their choices. Sixty key events will be discussed with 15 given 'star status'. Key technologies will be featured, together with photographs from Chris Bennett and illustrations from *Time Team*'s own Victor Ambrus. So, whether you want a quick foray into the past or a definitive guide to British history, this book will give you and your family an accurate chronology of the events that shaped our society and a clear picture of exactly what happened when.

With the help of 200 colour photographs, the chief archaeologist from Channel 4's 'Time Team' shows how England's changing landscape, from prehistoric times to the present day, can be interpreted from the air
