Tides are the rise and fall of sea levels caused by the combined effects of the gravitational forces exerted by the Moon and the Sun, and the rotation of Earth.

Tide tables can be used to find the predicted times and amplitude (or "tidal range") of tides at any given locale.

extra colour to your tale by hooking the monstrous fish with a fly tied from a tuft of your golden retriever's fur. These are just some of the tips, tricks, and fishing anecdotes packed into Stu Thompson's illustrated fly-pattern book.

Thompson, who has been fishing in the province of Manitoba

years prior, a drunken moment's poor decision led to them being caught in a compromising position. Although Jasmine was horrified by her action, Tyson had fallen in love. She hasn't seen him since that night, but the incident still lurked in the back of her mind. Surely he'd forgotten it had ever occurred...or had he?
