"Brimming with stories of sacrifice, courage, commitment and, sometimes, failure, the book will support anyone pondering a major life choice or risk without force-feeding them pat solutions."—Publishers Weekly In *What Should I Do with My Life?* Po Bronson tells the inspirational true stories of people who have found the most meaningful answers to that great question. With humor, empathy, and insight, Bronson writes of remarkable individuals—from young to old, from those just starting out to those in a second career—who have overcome fear and confusion to find a larger truth about their lives and, in doing so, have been transformed by the experience. *What Should I Do with My Life?* struck a powerful, resonant chord on publication, causing a multitude of people to rethink their vocations and priorities and start on the path to finding their true place in the world. For this edition, Bronson has added nine new profiles, to further reflect the range and diversity of those who broke away from the chorus to learn the sound of their own voice.

Voters need to be informed to make political decisions, but what if their media diet not only prevents them from getting the information they need, but actively shapes inaccurate perceptions of the world? Drawing on examples and evidence from around the world, this book aims to make a timely intervention to the debate about the concept of fake news. Its underlying argument will have three objectives. First, to offer more precise definitions for a term that is often loosely used. Second, to offer a less technologically determinist view of fake news. New social media platforms, such as Facebook and WhatsApp, are clearly an important part of the story, but they exist in wider social, political and institutional settings. Third, to situate the idea of fake news (and our concern about it) in broader arguments about an ongoing crisis and loss of confidence in liberal democratic institutions. Only with this perspective, it will be argued, can we possibly address the question of what we should do about fake news.

The Irish border is a manifestation of the relationship between Britain and Ireland. When that relationship has been tense, we have seen the worst effects at the Irish border in the form of violence, controls and barriers. When the relationship has been good, the Irish border has become - to all intents and purposes - open, invisible and criss-crossed with connections. Throughout its short existence, the symbolism of the border has remained just as important as its practical impact. With the UK's exit from the European Union, the challenge of managing the Irish border as a source and a symbol of British-Irish difference became an international concern. The solution found in the UK-EU Withdrawal Agreement gives the Irish border a globally unique status. A century after partition, and as we enter the post-Brexit era, this book considers what we should know and do about this highly complex and ever-contested boundary line.

Read Bruce Frankel's posts on the Penguin Blog "This wise and inspiring book hands down an important message: Happiness is abundant at any age, and only you can limit your options." -The Boston Globe In today's world, the question "What should I do with my life?" only scratches the surface. Now, more and more people-from baby boomers retiring from their "first act" to people in their forties and fifties reconsidering their careers in a recovering economy-are finding themselves wondering how to find new stimulation and meaningful work over a lifetime. Bringing together a diverse array of stories, veteran journalist Bruce Frankel brings to life a mesmerizing series of profiles of men and women who discovered a new calling, success, or purpose later in life. Brimming with inspiration and humanity, *What Should I Do with the Rest of My Life?* celebrates activists, artists, entrepreneurs, filmmakers, and others who found extraordinary ways to experience true fulfillment in the second half of life. On these pages, readers will meet a civil servant, laid off at age fifty-two, who enrolled in graduate school, earning a Ph.D. in psychology; a former consultant who began a microfinance program in Africa; a longtime contact-lens grinder who has chiseled twelve hundred stone heads on a property now known as the "Easter Island of the Hudson"; and many others who proved that age is a spark-not a barrier. Full of spirit and plenty of chutzpah, this book shows that anything is possible in any stage of life.

Life requires death as its conclusion. This is part of the human condition. Growth from death is only an option. Growth is a goal that can only be achieved with effort. Many people are 'torn down' by grief and it sets them back. I have had family and friends that have never recovered from loss. Growing is a choice. Choose growth or choose life. The decision is only yours. The wise choice is growth. GrievingTeensPublishing.com GrievingTeens.com

Is it ever OK to be dishonest? Is it wrong to enjoy violent video games, or to cheat on one's tax returns? Should we be vegetarians? When is war justified? Are there any moral facts, or is morality relative? Life throws ethical questions at us every day. Some are momentous and difficult, while others are relatively trivial and easily worked out; still others lodge themselves in our heads and bother us for years. We regularly encounter controversial issues (such as prostitution, abortion, or racial profiling), tricky conundrums (Would I be wrong to take advantage of my teacher's forgetfulness? When should I allow my teenage daughter to have a boyfriend? Are we responsible for our emotions?), and classic problems (What is the relation between religion and morality? Is suicide wrong? Why should we be moral?) Philosophers have engaged with these questions for as long as there have been philosophers, but most people have had no exposure to the wide variety of arguments and positions that they have offered. The website AskPhilosophers.org has sought to fill this void, bringing together a panel of distinguished philosophers who use their knowledge of the history of philosophy, as well as their own skills and ingenuity, to respond to questions sent in from all over the world. *What Should I Do?* is a collection of some of the most interesting questions about ethics to have appeared on the website during its first five years. It is a delightfully fresh book that will encourage readers to think a bit more deeply about the moral questions they frequently encounter, and will provide them with the tools to do so.
