With Mike Brewer, Edd China, Ant Anstead, Paul Brackley. The hosts team up to find and flip serviceable used classic cars. Mike scours the Internet and local trade rags for bargain-priced modern classics needing attention. Edd China (and in later seasons, Ant Anstead) applies the elbow grease to bring the cars up to a nearly new condition, allowing Mike to "sell them on" for a profit.

This is the most common drilling method used for geotechnical site or ground investigations. Since the beginning of Gary Wheeler Drilling Ltd, we have predominately specialised in cable percussive drilling. Cable Percussion drilling uses a mobile rig, driven by a diesel engine and a tripod derrick of about 7m height.

In this book, Carr unravels the biography of the archaeologist Tessa Verney Wheeler, a charming, tiny woman whose untimely death left her archaeological career overshadowed by her distinguished husband, Sir Mortimer Wheeler. Despite a short career of just over twenty years, Verney Wheeler published and excavated extensively while simultaneously developing new archaeological techniques, brought archaeology into the lives of the general public through her connections with the Press and the encouragement of site tours, and was an inspiring teacher to an impressive roster of students. In this biography, her life is recovered through an examination of her written work, archives, sites, and photographs, as well as through the memories of those who knew her. By means of a discussion of the very personal life and work of one woman, Carr explores the role of women in early British archaeology, resulting in a fascinating picture of a woman and a vivid evocation of the interwar period in London and Wales. From her work retraining colliery navvies as archaeological diggers in Roman amphitheatres on the Welsh borders, to cheap omelettes with her students at the Lyons Corner House on Piccadilly in London, Verney Wheeler crossed social and physical borders with a grace and appeal that remains very palpable today.

Despite a reputation for being eccentric and dangerous, Reliant three-wheelers are ever-present in the classic car scene and are now seen as icons of British popular culture. [Reliant Three-Wheelers - The Complete Story](#) charts the development of these much-loved cars from 1935 onwards and includes the development and production of the Regal, Robin, Bond Bug and Rialto along with detailed specification guides and hundred of photographs throughout. An ideal resource for anybody with an interest in these classic cars, from one of the last major British vehicle manufacturers, the book covers origins of Reliant and the girder fork Light Delivery Van in the 1930s, post-war passenger cars and the groundbreaking fibreglass body of the Mark 3 Regal, Reliant under new ownership and the redesigned BN Robins, and Reliant three-wheelers in popular culture. Fully illustrated with 130 colour and 147 black & white photographs.

Given our rapidly growing population, the need for judicious management of essential natural resources is becoming a major challenge for planners, managers and scientists/researchers. This book presents a multidisciplinary approach to managing water, energy and bio-resources, described in papers contributed by distinguished scientists and academics working at reputed universities and institutions around the globe. It includes 28 chapters grouped into three sections: Water Resources Management; Energy and Bio-resources Management; and Climate and Natural Resources Management, examining case studies from all over the world. These contributions address current challenges, offering modern techniques for managing these resources in various geographical regions. This volume will provide a valuable asset for researchers and students, managers, environmentalists, hydrologists, water resource and energy managers, governmental and other regulatory bodies dealing with water, energy and bio-resources.

Incorporating HC 837-xlviii to lxiii, session 2005-06. The Crossrail Bill was originally published as HCB 2, session 2006-07 (ISBN 9780215707871) and was carried over into session 2007-08 as HCB 5 (ISBN 9780215709202). The first volume of the report is available separately as HC 235-I, session 2006-07 (ISBN 9780215036810), as is Vol. 2 (ISBN 9780215037169), Vol. 3 (ISBN 9780215037176) and Vol. 4 (ISBN 9780215037183)

The Tombigbee River flows through the history of Alabama and Mississippi, connecting the Black Prairie cotton belt of northeast Mississippi and west Alabama to Mobile and the Gulf of Mexico. In the early 1800s, it became the regional artery of commerce and trade, with steamboats carrying cotton to the port of Mobile and then returning upriver with farm supplies and consumer goods. Today, the "rollodores," who rolled cotton bales down slides to the decks of boats; the sunken logs, or "dead heads," that could sink a boat if struck; and the "side-wheeler" model steamboats have all but vanished. The Tombigbee River Steamboats brings this forgotten era back to life through accounts of the steamboats, their crews and their trials, such as the haunting story of the steamer Eliza Battle, which burned and sank on a freezing, flooded river.
